

30 Students Killed, 6 Soldiers Lynched In Venezuela Riot

Protests on Terrorism Tactics of Ruler Bring Machine Guns Into Play Against Young Boys.

PROMINENT WOMEN PARADE IN BLACK

Strict Censorship Prevents News of Uprising as Citizens Align Selves With Student Leaders.

Cucuta, Colombia, March 8.—(United News.)—Latest reports from Caracas, Venezuela, received here today, said 30 persons had been killed in Venezuelan disorders. This does not include the six policemen who were lynched by students.

Students arrested in connection with the disorders are still being held in their dungeon jail, although the government has offered to liberate them under bail. The students decline to negotiate with the government, it was said.

Cucuta is on the Venezuelan-Colombian border.

Bogota, Colombia, March 8.—(United News.)—First details of recent disorders in Caracas, capital of Venezuela, was brought to Colombia today by commercial travelers who crossed the Venezuelan border at Cucuta.

Student protests in Caracas against United States action in Nicaragua and against the possibility that Venezuela might lose its rich oil lands to Maracibo to foreign concerns caused the disorders, the travelers said.

There were many casualties and six policemen were said to have been lynched by students in retaliation for the police action in shooting into a crowd of rioting students, many of whom were said to have been killed or wounded, and the remainder taken to the under-sea level dungeons at Puerto Cabello.

Some young pupils still wearing knickers even changed these for long pants so that the police could arrest them, the travelers said.

During three consecutive days activities were suspended and only women and children wearing black could be seen in Caracas streets.

The travelers said that army and police forces under Eustacio Gomez, the president's brother, dispersed popular meetings by using machine guns. The French minister, according to the travelers' unconfirmed (by official sources) accounts, who attempted to mediate and prevent bloodshed, was ordered to leave the country.

The travelers could not ascertain the number of casualties, saying that those suffered by the students were quite heavy. The travelers said it was known, however, that six policemen were killed.

It was asserted that police shot down part of a crowd of rioting students and arrested the remainder.

On the day following this tragedy, the newspaper said, society women paraded the streets of Caracas, wearing caps and black ribbons in silent protest against the police action, and marched to Bolivar square, where machine guns had been installed by the authorities.

The trouble started, El Tiempo quoted travelers as saying, when more than 500 students paraded, singing "The Marseillaise" and shouting "Down with the tyrant Gomez!" the president.

The El Tiempo reports declared that several prominent citizens were killed and that the Chilean minister and the secretary of the Cuban legation were slightly wounded.

A drastic censorship has been imposed in Venezuela.

INTEREST KEEN IN HOME-MAKING

Officials Gratified at Attendance at Model Home and Attention Paid Its Many Details.

Increasing attendance at The Constitution's second model home is serving to exemplify to the minds of officials cooperating in the movement a growing interest in proper construction of homes and a tasteful scheme of furnishing and decorating.

This was the statement Thursday of leading figures in the local business world who are engaged with The Constitution in presenting to the public the ideal dwelling at Peachtree Battle avenue and Alton road in Haynes Manor, which three open doors last Sunday.

The opening day's attendance was highly gratifying to those in charge despite the rains of the day, and heavy attendance was drawn to the home Monday, Tuesday and Wednesday by sunny weather. Thursday the crowds continued unabated, and interest was plainly keen on the part of the home-lovers who visited the structure.

Every novel feature of construction looking to permanence, comfort and convenience is being subjected to close scrutiny, and all visitors are deeply interested in the magnificent furniture and decorations with which the home is supplied. Mechanical and electrical devices looking to saving of time and labor also are arousing universal attention and approbation.

The model home will be open for a period of 30 days from last Sunday. On week days it invites public inspection between the hours of 2 and 5 o'clock and on Sundays from 2 to 10 p. m.

CONTENTMENT!

Peace of mind is to be valued more highly than pearls and rubies. It prevents dissatisfaction with your station in life; it discourages restlessness and vain cavilling against Fate.

To win Contentment, first cultivate Thrift. Get the full measure of value out of each dollar you earn. Learn to appreciate quality as well as low costs.

To win Contentment and to woo Thrift, make your purchases intelligently after consultation with advertisements that you know may be depended upon for truth, for quality, for economy. That's equivalent to advising that you read Constitution ads, daily—carefully.

Chicago Grain Man Tells of Receiving Bonds From G. O. P

GEORGIA WILL PAY
LAST HONOR TODAY
TO S. G. McLENDON

State House Will Be Closed as Officials Attend Funeral of Venerable Secretary of State.

Georgia's state flag flies at half-mast and the statehouse offices will be closed, as an escort of honor composed of some of the foremost citizens of the state attend the funeral services of Secretary of State Samuel Guyton McLendon, for nearly half a century a distinguished figure in Georgia public life, who died at 8 o'clock Thursday morning at his apartment in the Henry Grady hotel after a lingering illness. The services will be held at 9:30 o'clock this morning at the First Baptist church and the funeral cortege will leave Atlanta at 11:30 o'clock for Athens, where burial will take place in the Oconee cemetery.

Funeral services will be conducted at the First Baptist church by Rev. E. M. Poter, acting pastor. Active pallbearers will be: Eugene R. Black, Frank Shumate, Henderson Hallman, Judge Arthur Powell, R. E. Harvey, Dr. S. W. McCallie, Sam Hewlett, Judge Warner Hill, Dr. Hugh M. Loeke and H. Warner Martin. Secretary McLendon leaves only one immediate survivor, his wife, formerly Miss Emily Hamilton, of Athens.

Governor L. G. Hardman will head

RACE TO LIBERATE ATLANTA STAGED

U. S. Messengers Seek To Stop Georgia Officers Before They Reach State Line With L. C. Smith.

Tampa, Fla., March 8.—(P)—A "race for liberty" was started by federal authorities late today in an effort to halt the removal of Leonard C. Smith, Atlanta contractor, to the Georgia capital, to answer a charge of false pretenses lodged against him there.

Smith, in custody of Georgia officers, was started for Atlanta shortly before noon by automobile, extradition papers for his return having been signed by Governor Martin at Tallahassee.

After the party had departed Federal Judge William H. Hunt signed an order directed against Sheriff L. M. Hiers of this county and the Georgia officers to show cause why they should not release Smith pending habeas corpus proceedings, which will be held in abeyance until March 19.

Two messengers were dispatched on different routes from Tampa by Attorney H. G. Sabine, representing Smith, to overtake the Georgia officers and Smith before they crossed the Florida state line.

In asking Judge Hunt for the writ Sabine declared the Atlanta contractor was not identified as the man named in the extradition papers, which called for the return of L. C. Smith.

Smith was arrested here Saturday at the request of Georgia authorities but was released on bond last Monday.

Leonard C. Smith, former Atlanta builder, was indicted by the Fulton county grand jury a week ago on three false swearing counts growing out of his statements in contractors' affidavits presented on application of loans from a local trust company, the solicitor's office says.

Smith is charged with perjury himself in that he swore several homes built by him here were free of debt with regard to building and labor liabilities. He was named in another indictment returned a month ago charging larceny after trust.

SENATE APPROVES
STONE MOUNTAIN
DEDICATION PAPER

Washington, March 8.—(P)—The Harris resolution providing for a committee of congress to attend the dedication April 9 of Stone Mountain memorial near Atlanta, Ga., was passed by the senate late today and sent to the house.

The resolution provides for appointment of five senators by the vice president and ten representatives by the speaker of the house to officially represent the United States at the dedication, which will be under the auspices of the United Daughters of the Confederacy.

SMITH RENEWS FIGHT TO WIN SENATE SEAT

Refused Membership in Upper House, Illinois Man Attacks Body as Scandal Source.

ENTERS CAMPAIGN TO FILL VACANCY

Declares 50 Men Scorned Wishes of Seven Million Free Citizens in Rejecting His Credentials.

Washington, March 8.—(P)—Direct evidence was received today by the senate Teapot Dome committee that at least some of the \$250,000 in Continental Trading Company Liberty bonds which Harry F. Sinclair turned over to the republican national committee in 1923 were paroled out to individuals for sale on the open market and the proceeds used to help extinguish the party deficit before the 1924 campaign.

James A. Patten, a Chicago grain commission merchant, who years ago started the world by obtaining a near-corner on the wheat market, testified that the late Fred W. Upham, treasurer of the republican committee at that time, gave him \$25,000 in Liberty bonds in December, 1923, and asked him to make a contribution in an equal sum to the party to help wipe out a deficit which Upham then placed between \$600,000 and \$800,000.

Patten said he sent the national committee his check for this amount, collected the bonds later and turned them over to the Jefferson hospital in Chicago, to which he had promised a donation of \$25,000. The one-time wheat king said he was "made indignant" at the size of the deficit, but saw the necessity of paying it off.

"I wondered why Upham gave me the bonds instead of selling them in the New York market, where the best price might be obtained," Patten said, adding that at the time he had no idea of the origin of the bonds. He furnished the committee a list of the serial numbers and a check of these against those of the Continental Bonds by the secretary to Senator Walsh, committee prosecutor, showed that \$20,000 of the \$25,000 once had been in the possession of the Continental Trading company.

Besides Patten, the committee examined five other witnesses, including William V. Hodges, of Denver, now treasurer of the republican national committee. Hodges took over the treasuryship in 1924 from Upham and testified that while his predecessor had delivered to him some memoranda concerning contributions between the 1920 and 1924 campaign there was no record as to contributions in 1923, when the national committee was organized.

L. S. LEDBETTER DIES AT HOSPITAL

Federal Commissioner Succumbs After Week's Illness; Funeral Is Planned for Cedartown.

L. S. Ledbetter, 79, of 751 Park drive, United States commissioner and well known Georgian, died late Thursday night at a local hospital, after an illness of a week. He underwent an operation a week ago and complications set in, resulting in his death.

Mr. Ledbetter had been a United States commissioner for the past two years. Prior to that time he had been engaged in business in Cedartown.

He was a native of that city and during his early manhood he studied dentistry and was for many years a leading dentist. His eyesight began to fail and he was forced to retire from his dental practice. He then entered the insurance field and continued in that business until he was appointed commissioner, with headquarters in the postoffice building.

Not only was he prominent in business circles, but Mr. Ledbetter also was active in church work. For years he was one of the most active members of the Cedartown Methodist church. He served at various times on the board of stewards of the church. He took an interest in fraternal orders and was a knight of honor of the Royal Arcanum.

Funeral arrangements have not been completed, but probably will be held sometime Saturday. His body will be taken to Cedartown, for burial.

Mr. Ledbetter is survived by three daughters, Mrs. C. H. Graves, of Cedartown, and Mrs. E. K. Bryan and Mrs. A. E. Barr, both of Atlanta, and several brothers and sisters.

LESS GOVERNMENT
SPENDING NEEDED,
SAYS BUDGET HEAD

St. Louis, Mo., March 8.—(P)—Calling attention to the "very discouraging" condition of the increasing cost of government in the United States, despite the decrease in the cost of the federal government, General Horatio M. Lord, of Washington, director of the federal budget, emphasized here tonight the need of a nation-wide effort to check the increase.

The greatest need in the interest of a continuation of prosperity in the United States, he said in an address before the Associated Industries of Missouri, is a campaign for less and wiser spending by our government.

Discussing the financial operation of the federal government with special reference to the progress of retrenchment, General Lord emphasized the fact that "the corporation which does business under the firm name of the United States of America is not only the biggest business in the world, but the best conducted."

NON-STOP FLIERS REPORT ALL WELL AFTER 18 HOURS

Detroit, Mich., March 9.—(P)—At 2:30 o'clock this morning, more than 18 hours after the takeoff, the monoplane piloted by Eddie Stinson and George Haldebrand, in their endurance record attempt, was cruising smoothly over Selfridge field near here. An "all is well aboard" note was dropped by the fliers. Weather reports indicated a slight snowstorm this morning.

Carl Vinson Blames Ag. Bureau in Drop Of Price of Cotton

MACON SUGGESTED
FOR CONFERENCE
OVER DELEGATION

Senator George and State Committee Will Meet at Early Date To Name Houston Party.

Members of the state democratic executive committee will be called to meet at an early date to confer with United States Senator Walter F. George relative to the selection of delegates and alternates from Georgia to the democratic national convention to be held at Houston, Texas, June 26, it was announced Thursday by Chairman G. E. Maddox, of Rome. This meeting will be called in conformity to a request made by Senator George Thursday in a telegram sent to Chairman Maddox.

In his telegram Senator George declared that he would accept the request made by the committee in resolutions adopted recently that he name the delegates and alternates but stated that he wanted the state committee to meet with him and "suggest the delegates and alternates to be appointed."

Chairman Maddox declared he would come to Atlanta Friday and would confer with Mr. Bessie Anderson, secretary of the committee, relative to the selection of a date for the committee meeting. He said he probably would suggest Macon as the meeting place.

"Not Avoiding Responsibility." Senator George declared in his message to Chairman Maddox that he was not making any effort "to avoid responsibility" for the naming of the delegates and alternates but that such a session would enable him to exercise the power conferred on him by the committee "wisely and properly."

When the question of adopting a plan for selecting delegates to the national convention came up at a session of the committee in February a hot fight developed. One group of members, led by Chairman Maddox, desired that Senator George be declared the authority to name the delegates inasmuch as he was the unanimous choice of the committee as a candidate for the democratic nomination for the presidency. Another group, led by Alex. Charles, vice chairman of the committee, favored the selection of delegates in a state convention. Those favoring the naming of delegates by Senator George won in the fight by the narrow margin of one vote, this being cast by Sam A. Nunn, vice chairman, the vote being 33 to 32 in favor of the George plan as opposed to the convention plan.

In his telegram Senator George said he was deeply sensible of the confidence placed in him by the state committee but added he had not sought the authority conferred upon him.

George's Time Occupied. "The committee having adopted this method of selecting the delegates," he said, "it seems proper to draw attention to the following: My business is in the senate; the work is exacting and I cannot well absent myself from the congress for a long period of time. On the other hand, your committee is composed of ten members from each of the congressional districts, as I understand, or approximately so."

MOTHER MURDERS TWO BABES; TRIES TO END OWN LIFE

Pittsburgh, Pa., March 8.—(P)—A mother killed her two babies here today and then made an unsuccessful attempt on her own life.

According to the police, the mother, Mrs. Catherine Ward, 35, stabbed Billy, aged 3 years, and placed him in a bathtub partly filled with water, after which she strangled Dorothy May, aged eight months, with a razor blade and swallowed poison and her condition was critical.

A note written by Mrs. Ward said the babies are in the bathroom. They are better off." Neighbors said the woman had been ill.

TURK RELIGIOUS TRIAL POSTPONED

Broussa, Turkey, March 8.—(P)—Trial of three American women on charges of disseminating religious propaganda in violation of the rules of the ministry of education has been postponed until April 2.

The courts delayed the trial in order that additional witnesses among students of the American school who are now scattered throughout Anatolia may be called. Broussa is a stronghold of the Moslem faith and the trial involving the historic battle between cross and crescent is being watched.

The women on trial are Miss Edith Sanderson, Miss Lucille Day and Miss Jennie Jillem.

A deposition from Turkish school inspectors will be called for on April 2 which probably will be followed by two more sessions of testimony and

RIVER TURNS OILY AT DONALSONVILLE

Donalsonville, Ga., March 8.—(Special).—For the last two days the entire surface of the Chattahoochee river has been covered with oil.

At a glance it resembles a solid stream of oil, the oleaginous substance appearing to be a thick covering on the top of the river.

People are flocking to the bridge at Neal's Landing to observe the phenomenon, which no one is able to account for.

defense and it is not expected that a verdict will be returned before the end of April.

At the last session some student witnesses denied that their teachers carried on religious propaganda but a majority of the testimony implicated Miss Sanderson and Miss Day. One of the witnesses quoted Miss Sanderson as saying to one of four girls alleged to have been converted to Christianity.

Out of Bounds

The time will soon arrive, if it has not already, when you will need a new Spring suit, and it is about that suit we wish to speak with you now.

Presuming, of course, you are not already a devotee of Hirsch clothes, let us impress upon you that while remaining away you are, perhaps unthinkingly, but nevertheless out of bounds from where you rightly belong.

Suppose you check up on this next suit and find out for sure if you are not. Price range from \$32.50 up.

Radio Power Transmission Looms by Use of 'Death Ray'

BY ALFRED P. RECK.
United News Staff Correspondent.
Washington, March 8.—(United News).—The "death ray" is going to be put to work for peace and commerce, according to its inventor, H. Grindell-Matthews, of London, England, who arrived here tonight.

The little, but powerful, radio beam, which two and a half years ago caused consternation throughout the civilized world by its death-dealing possibilities, will be used to drive motors, light homes and turn the wheels of industry, he said.

Through the knowledge gained by experiments with "death ray," Grindell-Matthews is satisfied the projected radio beam has commercial possibilities.

"Using the principle of the radio beam," the scientist explained, "airplanes, automobiles, factories and household equipment can be operated by power broadcast through the air from a central station."

"It is not stretching the imagination to picture the airplane of a few years from now flying without fuel tanks and picking its power out of the air from radio waves."

End of Transmission Wires.

"In the same manner we can do away with costly and unsightly high-power transmission lines, which form a net work across the country today," he continued. "We can generate power at the source of supply—at the coal mines and the water falls—and shoot it into the air, eliminating the transportation of coal and the strings

of power lines. We are able to do this today but the only hold back is to devise some means of collecting for the power used."

Grindell-Matthews is still holding the secret of his so-called "death ray" in his British laboratories. It has not been given or sold to any country and the inventor declared he would not permit its use except in the defense of his country.

Another project which the scientist is interested in is the commercial development of his "luminophone." This strange instrument, no larger than an ordinary library table, can produce organ music by the use of light rays shining on a revolving disk.

Has Keyboard.

The instrument, itself, has a key board similar to a small organ. Above the key board are two revolving brass disks perforated with rows of tiny holes.

Above the disks are a series of small electric lights, fitted with powerful lenses to direct the rays on the holes in the disks.

As a key is pressed, a light flashes, the ray strikes a certain row of holes on the spinning disk and a clear, true tone comes forth through a loud speaker.

The tone is much clearer and truer than that produced by the best of wind organs, Grindell-Matthews stated. There are no needs to be affected by climatic changes.

"The ordinary pipe organ costs around \$15,000," he said, "but the 'luminophone' can be built and sold for less than \$2,000."

ROCKDALE PRIMARY RESULTS IN RUNOVER

Conyers, Ga., March 8.—(Special).—One of the most spirited primary elections Rockdale county has experienced in many years was that held yesterday, in which all county officers were nominated.

The contest for the nomination to the office of county sheriff attracted the greatest attention, which was won by J. Floyd Cook, who defeated Sheriff Sam L. Cowan, who had held the office for the last 14 years.

Since none of the candidates received a plurality of votes for the offices of tax receiver and clerk of the superior court, it will be necessary for a run-over between Dan J. Stewart and Barto Walker for receiver, and Horace King and Tom Marston for clerk.

The following were nominated for the respective offices: Judge E. F. Cook, ordinary; Miss Violet Tucker, county school superintendent; E. E. Owen, tax collector; James Newsum, J. J. Sizemore and J. A. Dempsey, for county commissioners.

NEWTON HAS HOTTEST ELECTION IN 20 YEARS

Covington, Ga., March 8.—(Special).—The largest vote polled in Newton county elections in 20 years was cast yesterday at the democratic primary with much enthusiasm and interest manifested from the opening of the polls to close. The election was one of the hottest ever held in this county.

All incumbents were reelected, although only two were unopposed, A. L. Love, for ordinary, and J. W. Wright, coroner.

Election results as follows: For ordinary, A. L. Love, clerk superior court, C. A. Cannon, 406; T. Clarence Meadows, 553; C. O. Nixon, 1,810; for sheriff, Carl L. Butler, 1,082; B. L. Johnson, 1,761; for tax collector, W. Grady Benton, 657; Otis Hardeman, 267; O. M. Neely, 2,112; for tax receiver, Sam C. Chesnut, 1,252; Miss Eva Stephenson, 1,575; for county treasurer, C. L. Harwell, 650; W. Kiser Lunsford, 1,783; John L. Maske, 687; for coroner, Joe W. Weigert; for commissioner roads and revenues, W. C. Pope, 861; Isaac Robertson, 1,932; for county superintendent of education, E. L. Fiequet, 1,088; E. N. Reynolds, 1,002.

SENATE BATTLES ON SHOALS FATE

Washington, March 8.—(P)—With Senator Fletcher, democrat, Florida, leading the attack on the Norris resolution for the disposition of Muscle Shoals, Senator La Follette, republican, Wisconsin, defending the plan, the eight-year-old Alabama power project question took up the entire day of the senate today.

Senator Fletcher, who was supported in his contentions by Senators Black and Heflin, Alabama; King, Utah, and Caraway, Arkansas, democrats, declared that "the plants at Muscle Shoals are rusting away while the senate is wasting time" and complained that the report of the senate agriculture committee offers no constructive help toward finding a solution for the question.

Backing up the recent criticism of Senator Walsh, democrat, Montana, of the "arrogant lobbying" of public utility corporations, La Follette launched into a speech in support of government control of electric power, as provided in the Norris proposed legislation.

In hitting the "menace of the power trust," the Wisconsin senator declared that "it is greater than that of the military," and said that under present day conditions control of electric service has become more and more a national problem.

A public power plant at Muscle Shoals will provide a most desirable yardstick with which to test the comparative value of public and private operation.

Senator Fletcher said that he was opposed to a government lease of the property "at a nominal rental."

The Florida senator declared that the government is at the mercy of the Alabama Power company, "since it is the only company having transmission lines leading from the plant, and, therefore, has an actual monopoly of power purchasing rights."

In the house the Motin bill, providing for a twenty-year lease of the project, was considered for the first time by the military affairs committee.

Although not supporting the bill in its entirety, letters from Secretary of Agriculture Jardine and Secretary of War Davis, submitted to the committee, declared that the measure was in close accord with views of the department and "is not in contravention of the policies suggested by the president."

Senator Norris, of Nebraska, agreed tonight to accept an amendment to the Norris resolution proposed a week ago by Senator Caraway, democrat, Arkansas, by which immediate government production of nitrates for fertilizer could be begun at the Muscle Shoals plant number two.

Commenting on the amendment tonight, Senator Norris said "it simply authorizes the secretary of agriculture to carry on an experiment with the power that is there."

Stewart, Hope Congratulated By County Board Associates

Congratulations were in order when the Fulton county commission, one day after renomination of Walter Stewart and George Hope as members, met Thursday afternoon in regular monthly session at the county courthouse.

Jovial handclaps and a general slapping of backs attested to the popularity of the successful candidates, named Wednesday to additional four-year terms commencing January 1, next.

An appeal by Solicitor General John A. Boykin for \$7,500 to establish a city and county bureau of criminal identification, action on which was deferred, and discussion of the type of paving to be laid on West Peachtree between North avenue and Tenth street featured the meeting.

Beavers Supports Measure.

In asking for the appropriation, Solicitor Boykin had the support of Police Chief James L. Beavers. Both

Weather Menu Indicates More Rain for Today

Showers again today are forecast by C. F. von Herrmann, United States meteorologist. Temperatures will be approximately the same as on Thursday.

day, the weather man predicted. Mr. von Herrmann expects the weather to clear again by Saturday.

Rains of Thursday were unexpected as a low pressure area from the plateau region moved faster than it was expected to, Mr. von Herrmann said. Temperatures Thursday ranged from 49 to 60 degrees.

DAUGHTER OF BRAND AND ATHENIAN WED

Anderson, S. C., March 8.—(P)—Miss Caroline Brand, daughter of Representative C. H. Brand, of Athens, Ga., was married to Patrick H. Meil, of Athens, here Tuesday night, it became known today. The ceremony was performed at the home of the Rev. Warren M. Seay, pastor of the First Baptist church, and the couple left immediately for Washington, D. C., in a motor car.

MRS. KATHLEEN IVEY GIVEN TOTAL DIVORCE

Savannah, Ga., March 8.—(P)—A divorce jury in the superior court today sustained Mrs. Kathleen Ivey in her request that the statement of her husband, Edward B. Ivey, that he shot Nick Dettrino at Tybee last summer because he had been familiar with Mrs. Ivey and broken up his home, be declared untrue.

The jury granted Mrs. Ivey a total divorce from her husband, who is now serving time in the penitentiary for the shooting; found that the statement made by Ivey concerning his wife was false, refused Ivey the right to remarry and restored the plaintiff's maiden name, Kathleen Partee.

Mrs. Ivey sought a divorce on the ground that her husband had been convicted of a felony. It also asked that the court, by proper order, exercising its equitable powers, investigate and determine the veracity of Ivey's statement, and affirmatively declare the statement untrue. This the jury, in its verdict, did.

NEW OFFICERS CHOSEN IN TERRELL PRIMARY

Dawson, Ga., March 8.—(Special).—The final tabulated returns from every precinct in Terrell county of the primary held yesterday shows that J. S. Jones defeated J. O. Fussell, incumbent, and T. C. Geise in the race for tax collector, the vote being: Fussell 545, Jones 754 and Geise 208.

Mrs. W. H. Gurr, incumbent, defeated Mrs. Frank Watson for the office of county superintendent of education by the vote of 670 to 434.

The race for sheriff was the hottest contest of the election and resulted in the election of J. T. Turner over E. T. Woods, incumbent, and Mark Brown, the vote being: Turner 651, Brown 501 and Woods 423.

Ernest Baldwin, present tax receiver, had a walkaway over George Spann and Seth Thomas, the vote being: Baldwin 815, Spann 451 and Thomas 201.

W. S. Dozier, present clerk of court, Ordinary L. C. Hoyle and County Commissioners J. A. Laing, John Brim and Charlie Oxford were unopposed, as was Treasurer A. J. Hill.

'Playing Ball' With Heavy Shot Boy Badly Hurt

Lawrenceville, Ga., March 8.—(Special).—While "playing ball" with a 12-pound iron shot today, Jesse Whitworth, 16-year-old student, was struck on the head by the missile, pitched by Calvin Leach, a student companion, and his skull fractured.

Young Whitworth, who is the son of Mr. and Mrs. R. B. Whitworth, prominent Lawrenceville citizens, and his companion were engaged in pitching the heavy round shot to each other, and when Leach threw it to Whitworth the last time, he said, the lad looked away for a moment and the shot struck him on the head.

He was taken to an Atlanta hospital in an ambulance, where an operation was performed. Doctors from the hospital were to the effect that while he is in a serious condition he will recover.

Loses Fingers.

Meanwhile, Ga., March 8.—(Special).—While working at a machine in the local planing mill here, Robert Cloud, 14-year-old son of Mrs. Bertha Cloud, had his hand so badly mangled that amputation of three fingers was necessary.

The lad worked in the mills after school hours.

You will be convinced that they are the utmost in quality, and surprisingly low-priced

Sizes, shapes, colors, designs are so varied as to meet the requirements of any room or hall—texture is so exquisite as to be beautiful wherever they may be used. See them at HIGH'S!

Bozart Rugs Are Waterproof and Fireproof

Water can not injure them, it only serves to brighten and beautify their richness of coloring, and—this is of great importance—they are Fireproof!

The makers of Bozart Rugs have created this most remarkable floor covering from a very tough material known as Swedish Kraft, which will endure an endless amount of hard wear and retain its beauty through a countless number of years.

Various Sizes In Most Charming

Bozart Rugs

For odd shaped Rooms, Dens, Halls—wherever a rug might be needed there is suitable Bozart! Variety of patterns.

Choice Lorraines

Size 8.3x10.6 Ft. \$13.00
Size 6x9 Feet \$9.00
Size 36x72 Ins. \$3.00
Size 27x54 Ins. \$1.75

Beautiful Jaspays

Size 8.3x10.6 Ft. \$14.00
Size 6x9 Feet \$9.50
Size 36x72 Ins. \$3.00
Size 27x54 Ins. \$1.75

Superior Dictators

Size 8.3x10.6 Ft. \$17.50
Size 6x9 Feet \$12.50
Size 36x72 Ins. \$4.25
Size 27x54 Ins. \$2.50

HIGH'S ANNEX

Fine Rugs In Exquisite Colors and Variety of Designs

Artistic Oval Bozart Rugs

The Oval Bozart Rugs have a very unique and distinctive beauty and are most reasonably priced.

Jaspay, 6x9 Ft. \$9.00

Jaspay, 4.6x7.6 Ft. \$7.50

Jaspay, 36x72 Ins. \$3.00

Jaspay, 27x54 Ins. \$1.75

By All Means See These Handsome Rugs!

9x12 Bozart Fibre Rugs

In designs and colorings which will be bright and beautiful through many years! Bozart Rugs do not curl! The 9x12 rugs are priced as follows—

Lorraine	Dictator	Jaspay
\$13.75	\$18.50	\$15.00

Designs Suitable for Every Room in the Home
The great variety of artistic cheerful designs makes these rugs suitable for every room in the home! They will delight you.

Ideal for All Types Business Houses
Their beauty and durability make them most useful in Hotels, Churches, Shops, Offices, Theaters, Stores, Beauty Parlors, Tea Rooms.

J. M. HIGH CO.

45 Years of Faithful Service and Value-Giving

HOOVER ENTERED IN INDIANA RACE

Indianapolis, Ind., March 8.—(AP) Herbert Hoover, secretary of commerce, entered another favorite son field today when he filed notice of republican presidential candidacy and thus became an opponent of United States Senator James E. Watson in the Indiana primary to be held May 8. Hoover recently filed in Ohio and will oppose Senator Frank B. Willis, also a favorite son.

The cabinet member's entry followed two hectic days of cross-country telephoning, speedily taken canvasses of various Indiana counties and the refusal of Hoosier boosters to give way to some eastern advisers that his name not be filed. Late today, however, and with only a few hours remaining in which to conform to the primary law, Oscar G. Foellinger, Fort Wayne publisher, won him over and was told by Hoover to enter him in the contest.

Following Hoover's announcement, word was received from Chicago definitely stating that Frank O. Lowden, Illinois' governor, would not enter the Indiana presidential contest. Clarence F. Buck, head of the Lowden campaign, put at rest reports that the Illinois man would enter the Indiana field if Hoover became a candidate.

Foellinger, who will manage Hoover's Indiana drive, declared he had found "a pronounced and growing sentiment in favor of the nomination of Secretary Hoover" within Indiana. "My conclusion from some inquiry in various parts of the country is that Indiana's chances of securing this nomination is most remote," he declared, and added: "The movement is pro-Hoover and not anti-anybody." "If any harm is done to party interests in the state during this campaign it will be no fault of the friends of Secretary Hoover," Foellinger continued. "They intend to try to keep this campaign friendly and to leave behind no sore spots."

Mr. Bert Thompson, national campaign manager for Senator Watson, declared he regretted "that Mr. Hoover has deemed it best to strike at party harmony by invading our state." "We are prepared, however, to meet the challenge that has been offered to Senator Watson in his native state and we have no fear of the outcome," he concluded.

The secretary of state's office remained open until midnight tonight to give belated entries in the presidential, United States senate and gubernatorial contests an opportunity to file their declarations. Early tonight the only democratic candidate for the presidency was Evans Woolen, Indianapolis banker.

FACING DEPORTING, ALIEN KILLS SELF IN COUNTY JAIL

Laredo, Texas, March 8.—(AP) Rather than return to Germany, where he would have had to support his family, Karl Herman Wallis, 37, hanged himself in the county jail today with a strip of blanket. He had been deported five times. Wallis, arrested as an alien immigrant, had been dead for several hours when guards came to serve a meal.

Asthma Tortured Him 50 Years

Finally Escaped Its Clutches. Says Cough and Wheeze Gone.

Those who have endured years of suffering from asthma and bronchial cough will be glad to read how Marion Brown, San Angelo, Texas, got rid of the disease. Mr. Brown writes: "I had asthma all my life. It came when I was a baby and I am now 51 years old. One year ago in May, as a last resort, I tried Vigoro. At the time I was so weak I could hardly walk, coughing with nearly every breath, and had not had a night's sleep in bed for ten weeks. On the second day my cough began to leave me, and I began getting good sleep and gaining in weight. Today my asthma is entirely gone. I don't choke up at night, and I feel sure I am rid of the disease. This remarkable statement is only one of many from former victims of asthma and bronchial cough, who have told how their troubles disappeared and never returned. Their letters and a booklet of valuable information about these diseases will gladly be sent you free by Name Medicine Co., 420 State Life Bldg., Indianapolis, Ind. No matter how serious your case, write for this free information. It may lead you back to health, as it has thousands of others." (See.)

Grows beautiful lawns and flowers!

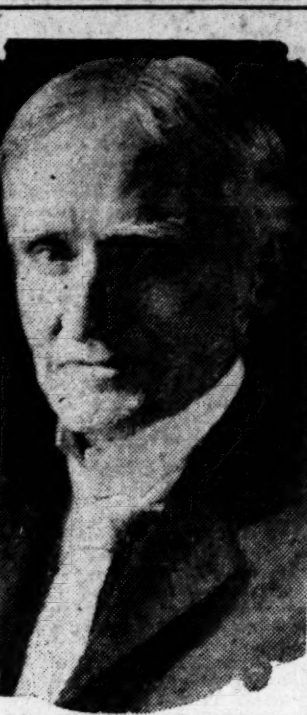

Success for all with Vigoro! Users find that this ideal plant food gives a quick vigorous start—more velvety green grass, better flowers, crisp succulent vegetables. Vigoro is odorless! So clean you sow by hand like grass seed! Plants get a balanced ration throughout the season. Enough concentrated

S. GUYTON MCLENDON.

STATE PAYS MCLENDON FINAL TRIBUTE TODAY

Continued from First Page.

The escort of honor which will be composed of General William A. Wright, state comptroller; W. J. Speer, state treasurer; Attorney General George M. Napier, Robert C. Alston, Judge Arthur Powell, Albert Howell, Clark Howell, James A. Holloman, Judge Hugh M. Dorsey, Thomas W. Hardwick, John K. Otley, John S. Cohen, James B. Nevin and Samuel Weyman, Atlanta; Chancellor-emeritus David C. Barrow, Athens; Pleasant A. Stovall, Savannah, and William B. Fleming, Augusta.

Following is the statement and order of Governor Hardman in connection with the death of Secretary McLendon:

"The executive department has received notice of the death of Hon. S. Guyton McLendon, secretary of the state of Georgia, beginning as mayor of Thomasville and later as a member of the general assembly from Thomas county. He was chairman of the railroad commission from 1907 to 1909. He has been secretary of state since 1919 and by virtue of this office was ex-officio commissioner of motor vehicles, corporation commissioner, chairman of the supreme court, chairman printing commission. He was a member of state geological board, state historical commission and board of forestry. This long public record stands as a monument to his consecrated labor in behalf of Georgia, and in his departure official Georgia, along with thousands of personal friends, will suffer a tremendous loss."

"Therefore, in honor of the distinguished secretary of state and illustrious citizen now deceased, it is

Governor's Order.
"Ordered, That the flags on the capitol and other state buildings be lowered and flown at half-mast for a period of 30 days; that the state capitol and offices therein be closed Friday, March 9, 1928; that Honorable L. G. Hardman, governor of Georgia; Hon. William A. Wright, comptroller general; Hon. W. J. Speer, treasurer general; Hon. George M. Napier, attorney general; members of the supreme court and court of appeals; all heads of departments of the state government; Hon. Robert C. Alston, Judge Arthur Powell, Albert Howell, Clark Howell, James A. Holloman, Judge Hugh M. Dorsey, Thomas W. Hardwick, John K. Otley, John S. Cohen, Samuel Weyman, James B. Nevin, Chancellor-emeritus D. C. Barrow, William H. Fleming, Pleasant A. Stovall and Thomas W. Hardwick are hereby named as an escort of honor and are requested to attend the funeral services in Atlanta at 9:30 a. m., central time, First Baptist church, March 9, 1928."

"In witness whereof, I have affixed my hand and seal of the executive department at the capitol in the city of Atlanta, this 8th day of March in the year of our Lord One Thousand Nine Hundred and Twenty-eight."

Was Picturesque Figure. In Secretary McLendon's death there passes one of the most picturesque figures in Georgia public life, a man who has held some of the highest

posts of honor in the capacity of his people to bestow, and a man who has held these posts with a record of faithful and loyal service which goes down as his most precious legacy to his family and friends.

Vigoro is political combat in spite of a rheumatic affliction which caused him to spend the last score of years in a wheel chair. Secretary McLendon was a forceful figure in the public affairs of his state. He served as a builder, being a pioneer railroad constructor. He served brilliantly at the bar. He served during the most important period of the development of the Georgia public service commission, the first of its kind that body and later in the office of secretary of state he brought a scholarly dignity and a keen intellect that was a credit to his people and to his state.

Love of People. As chairman of the public service commission, as mayor of his home city of Thomasville, as railroad builder and railroad lawyer, as a member of his state's general assembly and finally as secretary of state he was always with a deep and abiding love of his state and his people and worked tirelessly with all his energy for the betterment of the conditions in which they lived.

Secretary McLendon was one of the old school of statesmen who held with fidelity to the belief that public servants should be elevated to high posts and to be retained in them on their merits alone. He scorned political bargaining and political chicanery and was ever ready to defend his belief with all his marvelous powers of public speaking and political sagacity. He felt that public officials should be men of understanding, of scholarly attainments and of an ability to enable the state to cope with the problems of the country in behalf of his state and in his own career he filled in every degree these requirements of statesmanship.

Born in Thomas County. Colonel McLendon was born in Thomas county, December 13, 1854, the son of William McLendon and Carolina McLendon. His early education was received in the public school of Thomasville, Georgia. Later he attended the University of Virginia, where he received an academic degree in the year 1873. In 1875, after taking a law course at the University of Georgia, Colonel McLendon graduated from that institution.

Colonel McLendon, on leaving the University of Georgia, went back to Thomasville where he "hung out his shingle" and began his first practice. This law which was intended to mark him in later years as one of Georgia's foremost authorities on law.

In those early days of his career his father was known as a large road builder, and during his vacation from his studies, he would journey to whatever site his father was handling construction work, and many times assisted the bookkeeper in the commissary. The colony which Colonel McLendon's father was connected with built the railroad from Thomasville to Albany, and later the road from Waycross to Albany, which at that time was known as the Brunswick and Albany railroad. Various other roads were graded by his father's firm, which included the road from Canulla to Newton, which, however, was never completed; the road from Bainbridge to Cuthbert, which was completed; and the road from Columbus to Marietta, which constitutes a part of the Georgia, Florida and Alabama railroad.

Mayor of Thomasville. Aside from his practice of law in Thomasville, Colonel McLendon was elected mayor in 1879, and was one of the active organizers of the Thomasville Library association. In the year of 1884 he was elected to the Georgia house of representatives, representing the 11th district. In 1888, when he became general counsel for H. B. Plant, who built and owned the Plant system of railroads.

In 1890, Colonel McLendon was married to Miss Emily Hamilton, of Athens, Ga., and to this union there were born two children, one of whom died at the age of 3, and the other succumbing at 14 years.

At the age of 15 Colonel McLendon earned his first money as a result of his own work, and all of the money he earned in his early years he gave to his father, who was a very frugal man, not because he needed it, but because of the extreme pleasure he derived in thus giving to her his earnings.

In 1907 Colonel McLendon was elected to the newly created Georgia railroad commission, where he served as chairman until 1918 when he was elected to the seat of secretary of state, which position he held until his death.

Colonel McLendon was known as a lawyer-scholar of the old school. His first inspiration to study law was after he had heard the then Senator Benjamin H. Hill lecture on "Constitutional Law" at the University of Georgia. The fundamental law of the United States has been, probably, his chief study, and this was said to have been few men who had a broader or deeper understanding of the United States constitution than he. His information has often been widely sought, especially on the money question and the tariff, being a firm believer in "sound money and protection."

At his home in Thomasville, the late Senator Mark Hanna also had a home. It is told that President McKinley, while visiting Senator Hanna, was prevailed upon to make a trip to Tallahassee, Fla., but did not feel inclined to make the trip unless he could return to Thomasville on the same day. Colonel McLendon, hearing of this, volunteered the services of a special train with the compliments of Mr. Plant, by whom he was employed at that time. The party included the president's wife, Mrs. McLendon and Mr. Cortelyou, who later was secretary of the treasury.

His broad learning in the field of constitutional history, aside from being a close personal friend of the late United States Senator Thomas H. Watson, led Mr. Watson, in 1913, to engage him as his attorney in the federal court in that year, where his motion to quash the indictment against his friend was sustained.

For many years in Atlanta Colonel McLendon resided at the Kimball house, where he came to be a familiar and characteristic figure among the throngs of the people. In later years he maintained his residence at the Henry Grade hotel.

Ed Bond & Condon company are in charge of funeral arrangements.

COOLIDGE INVITED TO SPEND SUMMER IN NORTH CAROLINA

Washington, March 8.—(AP) President Coolidge was invited to spend next summer's vacation in North Carolina by Philip S. Henry, of Asheville, who was introduced to the president by Senator Overman, of that state.

Mr. Henry offered for the summer white house Zealandia, his 130-acre estate on Beaucatcher mountain at Asheville.

London, March 8.—(AP) British officialdom, with characteristic English calm, tonight viewed the "holy war" in Asia with less concern. But snatches from the Persian gulf pointed the head of the Persian gulf pointed a different picture.

Official observers gave out a report that Ibn Saud, king of Hedjaz and sultan of the Nejd, was planning to visit Mecca. They pointed out that the Wahabites are now friendly toward the holy city of Mohammedanism and declared that the British government was likely to see Riyadh, the capital, in the center of Arabia, if there was any immediate prospect of putting his own forces into the field.

This estimate was made in contrast with the previous analyses of Ibn Saud's character which made him out as more anxious for restoration of his yearly subsidy from the British government than for extension of his domain.

Dispatches from Basra, Iraq, showed the British there and at Kuwait preparing for possible early attack on the frontier. Airplanes, armored cars and transport cars have been stationed outside the walls of Kuwait, ready for a dash to any threatened spot.

Unconfirmed reports have reached Basra that the western edge of the desert is already being with desert warfare, with several villages in Transjordan captured and looted by Wahabites. But nothing of that sort came from officers nearer the scene.

But all officers and men of the Transjordan garrisons who are on leave have been recalled; frontier patrols have been strung out, and armored cars and air reinforcements moved into the territory.

Another report said that the Jordanian desert from the Syrian desert from Bagdad to Damascus had been closed. This is the result of a decision by the British government that no national appropriation having been made because the government may not purchase parks but accept the gift of them.

LONDON PREPARES FOR DESERT WAR

London, March 8.—(AP) British officialdom, with characteristic English calm, tonight viewed the "holy war" in Asia with less concern. But snatches from the Persian gulf pointed the head of the Persian gulf pointed a different picture.

Official observers gave out a report that Ibn Saud, king of Hedjaz and sultan of the Nejd, was planning to visit Mecca. They pointed out that the Wahabites are now friendly toward the holy city of Mohammedanism and declared that the British government was likely to see Riyadh, the capital, in the center of Arabia, if there was any immediate prospect of putting his own forces into the field.

This estimate was made in contrast with the previous analyses of Ibn Saud's character which made him out as more anxious for restoration of his yearly subsidy from the British government than for extension of his domain.

Dispatches from Basra, Iraq, showed the British there and at Kuwait preparing for possible early attack on the frontier. Airplanes, armored cars and transport cars have been stationed outside the walls of Kuwait, ready for a dash to any threatened spot.

Unconfirmed reports have reached Basra that the western edge of the desert is already being with desert warfare, with several villages in Transjordan captured and looted by Wahabites. But nothing of that sort came from officers nearer the scene.

But all officers and men of the Transjordan garrisons who are on leave have been recalled; frontier patrols have been strung out, and armored cars and air reinforcements moved into the territory.

Another report said that the Jordanian desert from the Syrian desert from Bagdad to Damascus had been closed. This is the result of a decision by the British government that no national appropriation having been made because the government may not purchase parks but accept the gift of them.

Bounded by the Big Pigeon and the Little Tennessee rivers, the park will contain the crest of the Great Smoky mountain which is the dividing line between the two states.

Geographically, Great Smoky Mountain National Park will lie close to the great centers of population. It is nearly halfway between the Gulf of Mexico and the Canadian border, 15 miles closer to the Atlantic ocean than to the Mississippi river. It is nearer to the corner of the state of Massachusetts than the city of Miami. A railway journey of less than 24 hours extends to Chicago, while New York is as close.

Twenty Miles from Knoxville. The park, 56 miles from end to end, and 20 miles wide in its broadest spot, will lie only 20 miles from Knoxville and 34 miles from Asheville.

Five big timber companies now are working land to be purchased for the park area. Mr. Chapman said, "The commission has been opposed to the lumber working because of the loss of virgin timber. However, the park officials declared, the area now contains the largest body of virgin timber land left in the eastern United States, 200,000 acres of the area having never been touched with axe and saw."

"The remainder of the area, but has fully regrown and little different from the virgin stand."

"As the mountains of the southern Appalachians are among the oldest in the world, older than the Rockies, Alps, or the Himalayas, the park area contains probably the greatest number of varieties of trees in any similar area in the world," said Mr. Chapman. "There are 152 varieties of trees in the region."

The story quoted Gillespie as saying Miss Mackay wanted to be the first woman to fly across the Atlantic, but her family would not consent to let her risk it.

Instead of abandoning the idea, she arranged with Captain Hinn of Stinson-Detroit to make the attempt anyway, but told her parents she was planning to fly to India," the story continues.

Their intention, according to Gillespie, was to take off from India and as soon as they were in the air to turn the nose of their Stinson-Detroit westward instead of southeast.

The Sun said Hinchliffe had been in secret communication with Gillespie for two months and had also been getting secretly, weather reports from ships at sea.

Came to U. S. for Ship. A few months ago Hinchliffe came to the United States. He was recognized at Boston but would not divulge the nature of his mission. He returned to England in a day or two.

"While here," the Sun said, "he bought a Stinson-Detroit monoplane similar to that used by Brock and Schindler on their flight from Detroit to Japan."

Since the plane arrived in England secret preparations for the trans-Atlantic hop have been going forward, the newspaper said. This tallies exactly with the Daily Express story.

"It was the pilot's intention to fly to Philadelphia if his gasoline held out that far," the Sun said. "Otherwise he would have landed at Roosevelt field."

Gillespie's last message from Captain Hinchliffe stated that the plane was ready and that he and Miss Mackay intended to start their secret flight to America on the full moon of March 6. Adverse weather held them up for a day and then the London paper broke the story. It is believed here that so far as Lord Inchcape's daughter is concerned, the flight is not off for all time."

WILL TEST PLANE IN INDIA FLIGHT. London, March 8.—(AP) A 4,000-mile flight to India as a preliminary test for an attempt to make the first flight from Europe to America in May or June is being planned by Captain Walter Hinchliffe, noted British aviator.

The captain said that he probably would start for India in about three weeks as a long preliminary test for the trans-Atlantic hop, but denied that Miss Mackay would accompany him on either attempt.

Miss Mackay, he said, has given financial support to his undertaking and has taken part in trial flights, but that is the extent of her participation.

Spinnery Refuse Lot. "Isn't that what has been happening for the past 18 months?" he demanded of Palmer.

The witness said he knew the cotton had been offered "several times" and not taken.

Vinson said the cotton had gone without takers although it could have been bought at 80 a bale less in New York than spinners actually paid in New Orleans to get their needs.

"The spinners didn't take that cotton because they could not use it," he said.

SENATE RECEIVES ALTERED AID BILL

Washington, March 8.—(AP) While the house agricultural committee continued to wrestle with the farm relief bill in executive session, the month-old action of the senate committee in approving an almost identical measure was formally reported today to the senate.

This proposed assistance for agriculture, the 1928 version of the wide-spread McNary-Haugen bill, now takes its place in the senate's long line of pending legislation. Action by the senate is not expected to materialize, however, until more progress is made by farm relief by the house, since priority is held by two other major problems, Muscle Shoals and flood control.

The house committee concerned itself today with that section of the bill relating to the powers of the federal farm board which would be created under the bill, but came to no conclusion. Meanwhile, Chairman McNary, Oregon, of the senate agricultural committee, submitted to his colleagues an extensive explanation of his modified bill. This noted that "far-reaching changes" had materially altered the measure from that passed and vetoed last session, but declared that "it is addressed to the same problem and is based upon the same general principles."

The equalization fee, to which President Coolidge objected so strenuously last year, remains in the bill, but nine other points registered against the previous proposal have been met, the report continues. Chief among these is that no limitation is placed upon the presidential choice of the administrative board and that relief provisions are applicable for all commodities instead of six "basic" commodities. Other changes to most administration objections, as expressed in the report, are that the bill "assists perishable agricultural conditions," that relief provisions would be suspended "in case of excessive planting or breeding," and "unreasonable discrimination in making marketing agreements" is eliminated; that the provision for state conservation machinery to express the producers' sentiments as to operation on any commodity is eliminated; that "serial receipts for cotton" are eliminated; that "limited liability for the government" is provided; and that it "clarifies insurance provisions."

An appropriation of \$250,000,000 to be used as a revolving fund for administration of the act would be provided under the senate bill. This figure in the house measure is \$400,000,000.

The bone of contention in both bills, when they reach the floor for debate, is expected once more to be the equalization fee. This provision, generally credited as most responsible for the veto last session, would provide for marketing of surplus crops through funds collected from the producers of those crops by the levying of a fee on their proportionate surplus.

TWO CHILDREN DIE, FIFTEEN INJURED, AS TRAIN HITS BUS

Charles City, Iowa, March 8.—(AP) Two children were killed and 15 others were injured this evening when a speeding Rock Island passenger train crashed into a school bus bearing 17 children home from a country school about 12 miles southwest of here.

Rogers Schuffert, 10, and Harrison May, 12.

Eight of the injured were seriously hurt and were taken to a Waterloo hospital on the train. Seven others were treated by physicians and were taken home. Four of the children escaped with minor bruises and cuts.

The train, 40 minutes late, was speeding to make up time when the accident happened.

CAPONE ASSOCIATE FELLED BY GUNS

Chicago, March 8.—(AP) Jack McGurn, 26, whose name has been closely associated with that of Al Capone, gang leader, fell probably fatally wounded before sub-machine gun and pistol fire in a cigar store on the north side last night. Nick Mastro, 37, a real estate operator, was shot accidentally when he walked into the line of fire.

Three men followed Mastro into the store, located in the McCormick hotel. McGurn, who was in the rear, recognized the trio and darted into a telephone booth. The three opened fire, one with a machine gun and the others with pistols. As McGurn fell and Mastro, shot in the arm and shoulder, staggered, the gunmen left the store and drove away.

Police believed the shooting marked a reopening of gang warfare on the north side. The store in which the attack took place is but three blocks from the Holy Name cathedral, in front of which "Hymie" Weiss, gangster, was assassinated.

At a hospital where he was taken McGurn refused to answer questions of the police, demanding to see his lawyer.

Belmont Hospitality

MISS MAY QUINN

TRAVELERS are always looking for letters and naturally so, for it is not only pleasant to hear from friends and associates but some times an urgent message may be involved, which, if received in time spells the difference between life and death, fortune or ruin.

That is why our Mail Clerk, Miss May Quinn stands so high in the regard of Belmont patrons. Miss Quinn cannot make your friends write to you, nor can she insure pleasant messages; but she handles the mail that arrives at this hotel without getting anything more and every letter or communication reaches its destination quickly.

Her ten years of courteous, efficient service have won many friends for Miss Quinn and the Belmont.

3 ALLEGED BURGLARS ARE HELD FOR TRIAL

Three negroes, Leroy Lester, 17, of 306 Courtland street, W. H. Mitchell, 17, of 1414 Melvin street, and Ernest Shotts, 16, of 223 Butler street, were bound over to the state court under bonds of \$1,000 each by Recorder A. W. Callaway, Thursday afternoon on charges of larceny from the house. They are alleged to

NATIONAL JAYCEES' HEAD VISITOR TODAY

H. Grady Vein, of East St. Louis, Ill., and national president of the

Junior Chamber of Commerce, will be the guest of the local organization at a luncheon to be held in the Capital City club at 1 o'clock today.

A program, including a tour of the city and a visit to Stone Mountain, has been arranged for Mr. Vein, who is one of the youngest officials to serve in the national organization.

Big Bethel Program.

An all-star program will be given at the Big Bethel African Methodist Episcopal church at 8:30 o'clock tonight by the Alumni association of Morris Brown university, according to announcement Thursday. The program will consist of numbers from individual representatives from all of the colored colleges in Atlanta.

OFFICE APPLIANCE CHIEFS IN SESSION

Problems relating to the office equipment manufacturing industry Tuesday were under discussion at the convention of the Office Equipment Institute at the Atlanta Athletic club. High officials of nationally-known office equipment and office appliance companies were in attendance from all parts of the country.

Thursday was featured by a luncheon and a dinner at the Athletic club, members of the institute being guests of the Atlanta Office Appliance association at the former event. Speakers were M. S. Eyer, of the General Office Equipment corporation and president of the Office Equipment Institute; W. P. Dillon, office equipment expert of the Southern Bell Telephone company, and P. R. Ramsey, division manager of the Monroe Calculating Machine company.

Mr. Eyer told the local association of the purposes of the national institute, which is seeking to educate the general public to the vital importance and the vast time and labor-saving mission of proper office equipment. The institute meets four times a year to discuss its common problems.

"Only this morning," he stated, "a brand new feature was injected into the discussion when it was reported that a questionnaire circulated among graduates of the nation's largest universities has brought to light the fact that the graduates are not interested in salesmanship. This is a problem that affects us, for we are always seeking salesmen of the highest type for office appliances."

"We are seeking to sell the public on the general importance of office appliances and proper equipment, and now we must begin selling the graduate students on the idea that there is no mystery about salesmanship, as they appear to believe. We must show them that salesmanship is a simple task—that of presenting a proposition in the clearest and most direct way possible."

A business session will be held by the institute this morning to discuss sales plans for 1928, profit margins and competition, better salesmanship and advertising. The board of directors of the institute will meet following luncheon, and in the afternoon members will play golf at East Lake Country club.

Officers of the Office Equipment Institute are Mr. Eyer, president; H. N. Fellows, of the Addressograph company, vice president, and H. R. Russell, of Remington-Rand Business Service, Inc., secretary and treasurer.

TERMINAL PORTER GIVEN 18 MONTHS FOR MAIL THEFT

Robert Barrett, former porter at the Atlanta Terminal company, was sentenced to 18 months in the Atlanta federal penitentiary Thursday when he pleaded guilty before Federal Judge Samuel H. Sibley to charges of stealing from the mail. Barrett was arrested around his body under his shirt, post-office inspectors charged.

Cricher Attends Bill of Lading Meeting Today

A. Lane Cricher, assistant chief of the transportation division of the department of commerce, will reach Atlanta this morning to discuss the practicability of the uniform through exchange of bills of lading.

A. LANE CRICHER.

port bill of lading with local business men, Harry O. Mitchell, branch manager of the department, announced Thursday.

A conference on the uniform through exchange of bills of lading will be held at 10 o'clock this morning at the chamber of commerce. The document is said to embrace the possibilities of simplified export procedure. Mr. Cricher will give a short talk on the origin and development of the document.

The Atlanta Foreign Trade club, the Traffic Club of Atlanta, the Atlanta Association of Credit Men, the United States shipping board, the Georgia Bankers' association and local shipping agencies, steamship companies and railroads are cooperating with the department in the matter.

Dr. Frank Surface, assistant director of the bureau of foreign and domestic commerce, arrived in Atlanta Thursday to confer with Atlantans on domestic commerce and merchandising and will remain here through Friday.

Grady Physician Defends Course In Case of Negro

Dr. J. W. Britton, ambulance surgeon at Grady hospital, Thursday answered charges of police that a Grady hospital physician Wednesday afternoon refused to care properly for an unconscious negro man at the police station, by stating that he did all that was possible for the man on his visit to the call, and that at the time there was no available room at the hospital for the man.

The unidentified negro, who was sent to police station on a charge of drunkenness Tuesday night, and who was found by police to be ill Wednesday, was transferred to the negro ward of Grady Thursday morning.

Charges by Police.
In a signed statement, Station Lieutenant J. A. Scott and Turnkey T. Jeffries Wednesday charged that when the unconscious negro's condition was investigated by a doctor riding with the ambulance, and that the physician said there was no space for the negro at the hospital, although Patrolman H. R. Smith had informed them that there were several vacant beds at the hospital. The officers' statement said that "we resent this negligence very much."

Police Chief James L. Beavers Thursday said that he had taken no action in the matter as he had had no official report, but that he probably would discuss the matter later with Steve R. Johnston, superintendent of Grady hospital.

In the presence of Mr. Johnston, Dr. Britton stated Thursday: "I went to see the man and gave him a thorough examination at the station house. Police said that he had had a stroke, but he was not unconscious when I examined him because he tried to talk to me but could not because of facial paralysis."

"It was evident that his condition would clear up and that he was in no immediate danger of death. He was suffering from cerebral hemorrhage."

"The medical wards were filled up, and we had two typhoid and two pneumonia cases which we cannot treat because of lack of beds. I told the officers that the man would get along as well at the police station as he would without a bed at the hospital, and that to move him would do more harm than good."

"I told them that if the man became any worse or did not show improvement to notify the hospital at once. I also told them that I would have a man come by Thursday morning to see the negro and that we would do our best to make room for him."

Negro Taken to Hospital.

"We found an available bed this morning when some patients were discharged, and took him to the hospital. He is not in a serious condition and is improving rapidly."

Mr. Johnston said that the hospital is doing all that it can for those who are ill out of the 25,000 Atlantans who are entitled to charity treatment. "We have only 500 beds to take care of the large number of charity cases," Mr. Johnston said.

"On Wednesday there were 400 patients registered here, and there were only 389 this morning. Of this number there were 221 negroes registered on Wednesday and 210 this morning. When we speak of beds we refer to all kinds from baby cribs to medical and surgical beds."

"We cannot use the few available surgical beds for medical cases, because we often get several emergency surgical cases necessitating immediate operations."

JACKSON IS FEATURED IN NEW "GOOD WORDS"

Interesting articles on Andrew Jackson, great American, who was born March 15, 1767, and who became president after a wonderful military career, and on the recent annual show of the institution, are contained in the March issue of "Good Words," official magazine of the Atlanta Federal penitentiary.

LEGION LUNCHEON TO BE FEATURED BY PIANO CONTEST

The regular luncheon meeting of the Atlanta post of the American legion will be held at 12:30 o'clock today in the ballroom of the Henry Grady hotel.

Herschel Upshaw has arranged a program for the meeting which will include a piano contest, two Tech boys having been selected, one to play jazz and the other classical music. The legionnaires are to select the one they like best by applause.

Miss Mooring, of the Margaret Mooring School of Dancing, with Roseline Astkin and Sara Bosworth, will present a dance feature.

YOUTH WHO SLEW THIEF EXONERATED, PRAISED BY JUDGE

H. A. Mitchell, Georgia Tech student who shot and killed Jose Cartagena, of 780 Park street, S. W., when the latter attempted to escape after robbing the fraternity house at 674 Spring street, was exonerated Thursday when arraigned before Recorder Callaway on a technical charge. Recorder Callaway praised Mitchell for his marksmanship and said that he hoped the occurrence would prove a deterrent to thieves.

Mitchell shot Cartagena after the latter had prowled through his room, the noise made by the burglar arousing the student, who feigned sleep until Cartagena left the room. Mitchell stood on a second floor porch, and shot Cartagena when the latter appeared to offer resistance on Mitchell's hail to halt, it was said.

Market Bureau Sells 195 Cars Of Farm Crops

All records for one month's sales were broken during February by the market bureau of the department of agriculture, when more than 195 carloads of farm products, bringing \$170,141.50, were sold through the bureau. It was announced Thursday by Eugene Talmadge, commissioner.

The products included 94 cars of hogs, \$89,845.85; 45 cars of corn, \$18,551.22; 24 cars of potatoes, \$9,613.62; 13 cars of hay, \$2,922.20; 10 cars of poultry, \$26,212.42; 5 cars of cattle, \$9,798.45; 3 cars of velvet beans, \$725; 2 cars of peas, \$1,455; 11.2 cars of soy beans, \$734; eggs, \$154; syrup, \$13.75; sheep, \$100.

All records for one day's sales also were broken during February, when, on February 15, the bureau sold 42 carloads of products for Georgia farmers, enough cars for two solid train loads.

The amount received for the February sales almost doubled the January sales, when \$90,358.52 was paid for 120 carloads of products sold through the market bureau.

Hogs led in products sold during January with corn second and potatoes third.

The sale of 94 cars of hogs and 45 cars of corn during the month of February shows to what extent the Georgia farmers are diversifying, as only a few years ago meat and corn were being shipped into the state in large quantities, instead of out of it. Mr. Talmadge said in commenting on the record sales of the bureau.

\$12,500 Is Voted By County Board To New Hospital

Members of the Junior league appeared before the county commission Thursday to plead the cause of the Eggleston Memorial hospital, now under construction at Fort street and Forrest avenue.

The Fulton commissioners, genial over Wednesday's primary returns, responded with a \$12,500 pledge to the institution, payable not later than January 15, 1929.

Phillip Alston, Atlanta attorney, told the commissioners the hospital contemplates an outlay of \$170,000 for buildings, equipment and a nurses' home.

At the institution, the cornerstone of which was laid last Sunday, no patients older than 12 years will be accepted. When completed it will house 50 beds, 42 of which are non-pay.

The local chapter of the Junior league, it was explained, is sponsoring a clinic there.

The will of the late Thomas F. Eggleston, benefactor, left to the hospital the income from \$500,000, amounting to approximately \$28,000 yearly, one-third of the estimated cost of operation.

Under the bequest, the money was to go toward a hospital as a memorial to the late Henrietta Eggleston, mother of the benefactor.

PRAYER—Teach me Thy way, O Lord, and lead me in a plain path.

SMOKY PARK ASSURED.

The appropriation of \$5,000,000 by the Laura Spelman Rockefeller memorial to match a similar amount for the establishment of the Great Smoky Mountain National park in Tennessee and North Carolina assures the completion of that project.

The park commissions of the two states have already raised \$4,860,000 and the remainder will be quickly subscribed.

When this is done the 428,000 acres of forest-clad mountains, a reservation of primitive nature peculiarly suitable for national park purposes will be finally purchased—the same being held under options—and presented to the government in compliance with an authorization of congress which instructs the secretary of the interior to convert the area into a national park on the same lines of development as have been employed in the national parks of the west.

The Smoky Mountain park will be the fifth largest in the United States, and the only reservation of the kind in the eastern states.

The government will build roads and trails, erect markers and provide sites for hotels, lodges, etc. It will also erect an administration building, picturesque cottages for officials and employees and provide for the maintenance of a bird and animal life sanctuary. The primal attractiveness of the area will be preserved as nature has provided, except that detracting features will be removed.

It is Secretary Work's ambition to make the Smoky Mountain park one of the scenic wonders of America, comparing with Yellowstone, Mount McKinley, Yosemite and Glacier parks, all of which are in the mountain and Pacific states.

The Tennessee-North Carolina reservation contains a group of the highest mountains and peaks east of the Rockies, also great gorges and canyons.

Some of the mountains are approximately 7,000 feet high.

For rugged appeal there is no section of the country that surpasses the park area.

The park area was chosen by a committee named by Secretary Work and headed by him in its investigations of several sites in the southern Appalachians.

The practical completion of the purchase fund by this munificent appropriation from the Rockefeller memorial means one of the greatest playground and recreational developments ever undertaken in the eastern part of the United States.

It will bring many thousands of additional visitors to the southeast each year, as has been demonstrated by the latest national park statistics which show that approximately 30,000,000 people visit the western parks annually.

The Smoky Mountain park will have several gateways, the two leading being Asheville and Knoxville. One-half of the area is in North Carolina, west of Asheville.

The movement for a national park in the southeastern mountains was inaugurated by The Constitution in 1922.

Secretary Work showed an enthusiastic willingness to cooperate, and it was largely through his untiring efforts that the park bill was passed by congress.

The governors of Tennessee and North Carolina appointed state commissions and the campaigns for raising the necessary \$10,000,000 to purchase the lands were vigorously undertaken.

Colonel David C. Chapman, of Knoxville, is president of the park association.

The faithful groups in both states that have labored so diligently for success deserve the highest commendation, as do Secretary Work and the members of the national park commission, which federal organization is a part of the department of interior.

It has been a stupendous undertaking. Its value to the southeastern states will be inestimable.

SAMUEL GUYTON M'LENDON.
Georgia lost a great and good official and citizen in the passing of Secretary of State S. G. M'Lendon. His death was not unexpected, as he had been slowly sinking for nearly two months, his illness resulting from a cold contracted late in December.

In the closing weeks of his illness he showed the same tenacity and courage and radiating good spirit that characterized his long and honored career.

He was cheerful to the very end, and passed away with a smile of contentment on his face.

In many respects Secretary M'Lendon was one of the most remarkable men in the state. He was often referred to as the Alexander H. Stephens of this generation. He was an encyclopedia of knowledge. He knew the history of this nation, and of Georgia, as perhaps few other men. He was an authority on constitutional law. He made a close study of the tariff, and had written books on both the federal constitution and the tariff—one an analysis of the organic code, and the other a discussion of the tariff from the established viewpoint of the democratic party.

After his graduation from the University of Georgia and his entry into the practice of law in his home city of Thomassville, the late H. B. Plant, who was the owner of the Plant system of railroads and steamships in Florida, and the first great developer on the west coast of that state, was attracted by his brilliancy and employed him as attorney for his railroads and other interests, and as his personal representative.

During the Spanish-American war Mr. M'Lendon was the voice of his chief, and personally directed all of the rail and water movements of soldiers to Tampa, and thence to Cuba by the Plant transports. His marked efficiency in this respect brought tributes from President McKinley, Colonel Roosevelt and others.

It is doubtful if any citizen of Georgia had a larger number of personal friends. He was a familiar figure for many years in the evenings in the Kimball lobby, and later in the lobby of the Henry Grady hotel. He was nightly surrounded by a group of friends who enjoyed the brilliancy of his conversation, and the intimate knowledge of any subject that might for the time be under discussion. His wit was gripping, his optimism contagious.

No man in Georgia displayed to a greater degree the elements of the old school of southern statesmanship. He was true to every trust, loyal to his state and to his friends, virile even in physical infirmity, unyielding in his democracy, conservative, and a master of method and detail. He was a profound scholar in every sense, not only in the fundamental and statutory laws, but in history, biography, and even in lighter literature. He was a constant reader.

Georgia will greatly miss this notable figure in public life. The news of his death carries deep sorrow to tens of thousands of close personal friends throughout the state.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Laughter in Museums.

On a visit to the Louvre I was witness to an incident which illustrates the popular idea of a museum. Two young men were in the Greek room, talking in ordinary voices as they burst into laughter, obviously at something which had been said. It was not particularly loud laughter, but it created a positive sensation. Guards came running from three or four directions at once to quiet the very noisy and laughing crowd.

The very air shuddered at the notion that anybody could laugh or be natural in the atmosphere of the sacrosanct museum. The sculpture of the ancient Greeks is one of the purest expressions of the creative joy of the human spirit. It was made by men who knew how to laugh for a race which knew how to laugh. But our contemporaries like their fathers and grandfathers, stick these things in museums and treat them with a funeral silence, regard them as monumental examples of the great and uncomprehended. He who laughs is lost. Why?

There was a little crowd assembled the other day round a very small motorcar which stood in the Boulevard Haussmann stubbornly refusing to go forward or backward. In the car was a young woman, her hair dressed whose not uncomely features had been embellished with a consummate modern art. She was much perturbed and feverishly pulled. Someone pressed pedals without causing any sign of movement in the little motorcar. Finally she pressed her hands to her head and declared distractedly that she could drive no more. Then a gallant young man came to the rescue, jumped into the car and drove the distressed female away. Someone in the crowd quietly remarked with a strange smile, "I saw the same thing happen to that 'jeune dame' in front of the Bourse only the other day."

Beauty in Distress.
There was a little crowd assembled the other day round a very small motorcar which stood in the Boulevard Haussmann stubbornly refusing to go forward or backward. In the car was a young woman, her hair dressed whose not uncomely features had been embellished with a consummate modern art. She was much perturbed and feverishly pulled. Someone pressed pedals without causing any sign of movement in the little motorcar. Finally she pressed her hands to her head and declared distractedly that she could drive no more. Then a gallant young man came to the rescue, jumped into the car and drove the distressed female away. Someone in the crowd quietly remarked with a strange smile, "I saw the same thing happen to that 'jeune dame' in front of the Bourse only the other day."

Exchange Parcelling.
"Ruilverkaveling" meaning the redistribution of parcels of land in conformity with a set of rules, is a term that a more logical and economic distribution may be obtained, is in progress in Holland now. In thickly populated countries, many generations ago, inheritance often leaves parcels of land in such small lots that farmers find it very difficult to cultivate them. Sometimes in Holland one finds tracts of land one yard wide, and 100 yards long. On the island of Ameland, north of the province of Groningen, for instance, a piece of ground of an area of 840 acres was parceled into 4,800 lots, belong to 466 owners. Now that "exchange parcelling" is in operation, a commission arranges for exchange of lots among owners in such manner that each man has all his ground in one piece, if possible. Before the "exchange parcelling," one owner of 30 acres possessed it in 280 pieces and another in 100 pieces. Now he still has 30 acres, but in five pieces.

The World And All
BY CHARLES B. DRISCOLL.

AS IF IT MATTERED.
Anybody who is a little about it. I think American politicians are by and large, entirely too officious and too lacking in courtesy. I think there is a whole lot of things that we need to do, but we are not doing them. I think we are not getting as much out of our public school plants as could be got out of them. Every public school auditorium ought to be available for the use of adults every evening when it is not being used for the children, and high school gymnasiums ought to be large enough to accommodate the public after school hours.

I think Gen. Tunney is a nice boy who is very much embarrassed by all the hokum about his scholarship. I think most of our short stories are too long, and that one of the best short stories ever written is "The Great Ank" by Irvin Cobb. I think some American millionaires could achieve immortality by endowing a research into the causes and cure of eczema.

SHORT SESSIONS SHOULD GO.
Congress is seriously considering the proposal to put an end to "lame-duck" sessions of congress in which defeated members continue to legislate for people who have refused to elect them. It is gratifying that the house debate shows a strong inclination on the part of the members to favor the bill.

The issue comes up through the Norris-White resolution seeking a constitutional amendment changing the dates of presidential inaugurations from March 4 to January 24, and to start congress on its way each January 4, or two months after the preceding November elections, thus eliminating the short sessions. This measure has already passed the senate several times, but has heretofore been blocked in the house.

The principle has been heartily endorsed by leaders of both branches of congress and many have expressed surprise that the present system has been maintained so long. And yet there are powerful forces aligned against the proposal.

It should pass, and the states should then quickly ratify it. There could be no wiser "20th amendment" than this.

It is almost unthinkable that a representative in congress elected in November cannot actually take up legislative service until December of the following year. In the meantime, the short session, in which defeated members participate, usually enacts the major volume of legislation during the two-year term.

On the desks of clerks in Washington is a small placard which reads "Twenty-six cents." That's the cost of each letter mailed by the federal government, and we will say, right off-hand, that most of them are not worth it.

"Ruilverkaveling" meaning the redistribution of parcels of land in conformity with a set of rules, is a term that a more logical and economic distribution may be obtained, is in progress in Holland now. In thickly populated countries, many generations ago, inheritance often leaves parcels of land in such small lots that farmers find it very difficult to cultivate them. Sometimes in Holland one finds tracts of land one yard wide, and 100 yards long. On the island of Ameland, north of the province of Groningen, for instance, a piece of ground of an area of 840 acres was parceled into 4,800 lots, belong to 466 owners. Now that "exchange parcelling" is in operation, a commission arranges for exchange of lots among owners in such manner that each man has all his ground in one piece, if possible. Before the "exchange parcelling," one owner of 30 acres possessed it in 280 pieces and another in 100 pieces. Now he still has 30 acres, but in five pieces.

The World And All
BY CHARLES B. DRISCOLL.

AS IF IT MATTERED.
Anybody who is a little about it. I think American politicians are by and large, entirely too officious and too lacking in courtesy. I think there is a whole lot of things that we need to do, but we are not doing them. I think we are not getting as much out of our public school plants as could be got out of them. Every public school auditorium ought to be available for the use of adults every evening when it is not being used for the children, and high school gymnasiums ought to be large enough to accommodate the public after school hours.

I think Gen. Tunney is a nice boy who is very much embarrassed by all the hokum about his scholarship. I think most of our short stories are too long, and that one of the best short stories ever written is "The Great Ank" by Irvin Cobb. I think some American millionaires could achieve immortality by endowing a research into the causes and cure of eczema.

SHORT SESSIONS SHOULD GO.
Congress is seriously considering the proposal to put an end to "lame-duck" sessions of congress in which defeated members continue to legislate for people who have refused to elect them. It is gratifying that the house debate shows a strong inclination on the part of the members to favor the bill.

The issue comes up through the Norris-White resolution seeking a constitutional amendment changing the dates of presidential inaugurations from March 4 to January 24, and to start congress on its way each January 4, or two months after the preceding November elections, thus eliminating the short sessions. This measure has already passed the senate several times, but has heretofore been blocked in the house.

The principle has been heartily endorsed by leaders of both branches of congress and many have expressed surprise that the present system has been maintained so long. And yet there are powerful forces aligned against the proposal.

It should pass, and the states should then quickly ratify it. There could be no wiser "20th amendment" than this.

It is almost unthinkable that a representative in congress elected in November cannot actually take up legislative service until December of the following year. In the meantime, the short session, in which defeated members participate, usually enacts the major volume of legislation during the two-year term.

On the desks of clerks in Washington is a small placard which reads "Twenty-six cents." That's the cost of each letter mailed by the federal government, and we will say, right off-hand, that most of them are not worth it.

The faithful groups in both states that have labored so diligently for success deserve the highest commendation, as do Secretary Work and the members of the national park commission, which federal organization is a part of the department of interior.

It has been a stupendous undertaking. Its value to the southeastern states will be inestimable.

SAMUEL GUYTON M'LENDON.
Georgia lost a great and good official and citizen in the passing of Secretary of State S. G. M'Lendon. His death was not unexpected, as he had been slowly sinking for nearly two months, his illness resulting from a cold contracted late in December.

In the closing weeks of his illness he showed the same tenacity and courage and radiating good spirit that characterized his long and honored career.

He was cheerful to the very end, and passed away with a smile of contentment on his face.

In many respects Secretary M'Lendon was one of the most remarkable men in the state. He was often referred to as the Alexander H. Stephens of this generation. He was an encyclopedia of knowledge. He knew the history of this nation, and of Georgia, as perhaps few other men. He was an authority on constitutional law. He made a close study of the tariff, and had written books on both the federal constitution and the tariff—one an analysis of the organic code, and the other a discussion of the tariff from the established viewpoint of the democratic party.

After his graduation from the University of Georgia and his entry into the practice of law in his home city of Thomassville, the late H. B. Plant, who was the owner of the Plant system of railroads and steamships in Florida, and the first great developer on the west coast of that state, was attracted by his brilliancy and employed him as attorney for his railroads and other interests, and as his personal representative.

During the Spanish-American war Mr. M'Lendon was the voice of his chief, and personally directed all of the rail and water movements of soldiers to Tampa, and thence to Cuba by the Plant transports. His marked efficiency in this respect brought tributes from President McKinley, Colonel Roosevelt and others.

It is doubtful if any citizen of Georgia had a larger number of personal friends. He was a familiar figure for many years in the evenings in the Kimball lobby, and later in the lobby of the Henry Grady hotel. He was nightly surrounded by a group of friends who enjoyed the brilliancy of his conversation, and the intimate knowledge of any subject that might for the time be under discussion. His wit was gripping, his optimism contagious.

No man in Georgia displayed to a greater degree the elements of the old school of southern statesmanship. He was true to every trust, loyal to his state and to his friends, virile even in physical infirmity, unyielding in his democracy, conservative, and a master of method and detail. He was a profound scholar in every sense, not only in the fundamental and statutory laws, but in history, biography, and even in lighter literature. He was a constant reader.

Georgia will greatly miss this notable figure in public life. The news of his death carries deep sorrow to tens of thousands of close personal friends throughout the state.

Erlanger.

Positively the last two days of the engagement of the mirth-provoking sensation, "Abe's Irish Rose," will take place at the Erlanger theater today and Saturday. Although Anne Nichols' world record holder has already paid Atlanta many visits, the interest in this splendid human comedy has not waned, and enthusiastic crowds have been in attendance at the Erlanger theater throughout the current week. Tickets may be had at the Erlanger box office and at Phillips & Crew Piano company.

week. "Maddock's Tricks" has all the earmarks of a big revue with plenty of attractive girls, clever dancers and comedians. Not a moment is lost in changing the scenes. The act moves from one to another in rapid succession. The entire bill is made up of excellent material.

Capitol.

When it comes to big-time entertainment on both stage and screen, then theatre patrons will search a long time before they find a program to surpass the current offering of the Capitol theater, with five big vaudeville acts on the stage and "13 Washington Square," a famous screen mystery play, on the screen. Headlining the stage program is the beautiful dance revue of Gauduchi and Phelps, and in support are seen Tameo Kajiama, noted Japanese calligraphist; Boyd and Wallin, the Wilmont sisters and Pearson and Anderson.

Howard.

Gloria Swanson gives her greatest characterization in "Sadie Thompson" at the Howard theater. Miss Swanson plays the title role in this super-production of a woman's conflict with a reformer. Lionel Barrymore plays the part of the reformer. Featured by Edith Griffith, Tom Mack presents Jack Partington's fast-moving stage show. "Dixieland" on the stage this week. Five big acts get off to a flying start and present a very entertaining show that clicks in true "Dixie" fashion. Joe Penner, comedian, also is proving popular with Howard audiences.

Metropolitan.

Thursday of the third week finds Atlanta's enthusiasm for Al Jolson's "The Jazz Singer" still undimmed. "The Jazz Singer" is the greatest advancement in motion pictures this city has been privileged to see. A series of praise from every audience packing the theater for each succeeding performance.

Rialto.

An excellent cast of players was provided for "The Leopard Lady," a mystery picture of circus life in Austria, now at the Rialto theater. Jacqueline Logan, Alan Hale and Robert Armstrong are featured in this exciting DeMille Studio production, directed by Rupert Julian.

Ponce de Leon.

Although motion pictures have always provided entertainment they are being used in a different manner in "She's a Sheik" Hebe Daniels' latest comedy for Paramount which opens at the Ponce de Leon theater today. The unraveling of a tight climatic situation rests upon the use of a motion picture projection machine. In fact, without the use of the machine, Miss Daniels' "She's a Sheik" is lost—in the story—but with it, there are laughs galore.

West End.

Thrills from start to finish with a mystifying plot that defies detection until the final scenes are the high lights in "The Cat and the Canary," the Universal mystery drama that plays at the West End theater for the last time tonight. Headed by Laura La Plante, the picture embraces an all-featured cast.

Palace.

Harold Lloyd gives a capital performance in "For Heaven's Sake," which closes at the Palace tonight.

MUSIC CLUB PROGRAM COMPLETED AT ROME

Rome, Ga., March 8.—(AP)—Ad dresses by prominent musicians of Georgia and other states, one by Dr. W. D. Furry, president of Shorter college, a piano recital by Mrs. Charles Downman, Atlanta, and a musical by the Junior and Juvenile Music clubs, of Rome, are features on the program for the annual convention of the Georgia Federation of Music Clubs, scheduled for this city, March 14 to 16.

Many of the best-known musicians in Georgia are expected for the gathering, along with leaders in related fields.

The program as announced here this week will include an address of welcome to the visitors to be delivered at the first general session Wednesday night by Barry Wright, Rome, followed by a response by Mrs. W. L. Bailey, Savannah, state president, and an address by Dr. Furry on "Character Through Music." A piano recital is listed for the same evening, by Mrs. Downman.

Thursday's program includes an address, "What Becomes of the Young Artist?" by Mrs. Vera Bull Hull, director of the National Music League, of New York; and the musical given by music clubs of Rome.

The program for the closing day includes an address by Mrs. George Houston Davis, Birmingham, Ala., and a musical by Miss Hazel Taylor, pianist, Ashburn, Ga., with Mrs. H. I. Shingler, soprano, Ashburn.

mie Hodges will bring to the Capitol theater next week to open a permanent run a company that surpasses anything he has assembled before, in the opinion of Manager "Marty" Simon —he returned Thursday from New York where he saw the Hodges company first.

The Hodges company, the most expensive of scenery and the finest vehicles will combine with the inimitable comedy of Jimmie Hodges to make the new Capitol policy to be inaugurated next week a sweeping and complete success, according to stage authorities who have seen the company.

The Jimmie Hodges company will be a permanent feature of the Capitol stage and the company will present a new offering each week in addition to a program of big-time vaudeville composed of three or more of the highest-priced and most entertaining acts available in New York.

These acts will be personally selected by the Capitol management.

Hodges, known here for his high brand of clever comedy, will act as master of ceremonies each week and this is expected to prove an immense asset to the Capitol's stage program. The entire Hodges company will number more than 20 people, snappy singers and dancers, comedians, a big beauty chorus and other features.

The Capitol management believes this new innovation in stage entertainment will supply a vacancy existing now, with vaudeville being the predominant and almost exclusive type of stage amusement here.

Senator Wagner, democrat, New York, asked Leshner for statistics on past earnings of the Pittsburgh Coal company, but the witness pleaded unfamiliarity with those details. Eaton then informed the committee that he had the figures, and later he asked the company officer whether the earnings were not \$14,000,000 in 1917; \$9,000,000 in 1918, and \$4,500,000 in 1919. Leshner said he could not answer.

On the opening day, Lewis charged the railroads with having conspired to force a reduction of miners' wages in order to get cheap fuel, attacked the courts for issuing injunctions against unions, and accused the coal operators with having violated the Jacksonville wage agreement. He again directed his fire principally at the Pittsburgh Coal company, characterizing it the "Bruit" of the coal industry for "betraying" the miners by being first to abrogate the Jacksonville agreement.

Wheeler asked if Lewis knew what motivated that policy on the part of the Pittsburgh concern and Lewis recounted his meeting in 1925 with W. G. Warren, chairman of the board for the Pittsburgh Coal company.

"Warden told me that R. B. Mellon had a bad year in 1924," said the miners' executive, "and that he wanted to make up for it. He told me he had been made chairman of the board of directors of the company, and said he wanted to make a good record in the position for 1925. He said the best way to do it was to reduce the miners' wages."

"This meant," Lewis continued vehemently, looking at representatives of mine operators in the crowded committee room, "to extort from the wages of miners additional profits for the Pittsburgh Coal company."

NEW HODGES COMPANY TO PLEASE ATLANTANS

Definitely stamped as Atlanta's favorite musical comedy star due to a long and highly successful engagement here several seasons ago, Jimmie Hodges

will bring to the Capitol theater next week to open a permanent run a company that surpasses anything he has assembled before, in the opinion of Manager "Marty" Simon —he returned Thursday from New York where he saw the Hodges company first.

The Hodges company, the most expensive of scenery and the finest vehicles will combine with the inimitable comedy of Jimmie Hodges to make the new Capitol policy to be inaugurated next week a sweeping and complete success, according to stage authorities who have seen the company.

Baseball Tabs

BY UNITED PRESS.

San Antonio, Texas.—Interest at the Detroit Tigers baseball camp centered today on the White Sox pitching staff last season, which took the mound at the start of the first exhibition game for Chicago 9-1 day, against the local club in the Texas league, it was announced today.

Bobble Battle.
San Antonio, Texas.—Interest at the Detroit Tigers baseball camp centered today on the White Sox pitching staff last season, which took the mound at the start of the first exhibition game for Chicago 9-1 day, against the local club in the Texas league, it was announced today.

Cobb at Augusta.
Augusta, Ga.—Ty Cobb, Philadelphia Athletics outfielder, has received permission from Manager Connie Mack to work out with the New York Giants until March 16 when the Athletics leave for series of games.

Shortfield v. Hurt.
West Palm Beach, Fla.—Walter Foster, shortstop of the St. Louis Browns for 12 consecutive years, was painfully but not seriously injured by a bat ball today. The injury was the first in the Browns' camp.

Slugging Battle.
Cleveland, Fla.—Engaging in another slugging battle, the Brooklyn Yankees overwhelmed the regulars here today, 22 to 12.

Urban Signs.
St. Petersburg, Fla.—In preparation for their opening exhibition game against the Red Sox tomorrow, the Boston Braves defeated the entire day in batting and fielding practice, disposing with the usual regulars.

Avon Park, Fla.—The St. Louis Cardinals humbled their second American league team in succession when they beat the Washington Senators here today, 6 to 5.

Shocker Out.
St. Petersburg, Fla.—Urban Shocker, veteran pitcher, has turned down the latest offer of the New York Yankees and Manager Miller Huggins today advised Secretary Ed Harrow to place the pitcher on the voluntary retired list.

Avon, Catalina Island.—The Chicago Cubs went through two strenuous general practice sessions at their spring training camp today.

After watching Artie Nehf serve them in batting practice, Manager Joe McCarthy predicted the veteran pitcher would be among the leading pitchers in the National league this season.

The Cubs will hold a brief session Friday morning and then depart for the mainland to meet the Los Angeles and Hollywood clubs of the Pacific Coast league, Saturday and Sunday.

Leggett With Cubs.
Memphis, Tenn., March 8.—(AP)—"Dutch" Leggett, catcher, formerly with Atlanta in the Southern association and the Chicago National League, today signed with the Cubs after having retired from baseball, and left at once for the Catalina Island training camp. Leggett, whose home is in New Orleans, came to Memphis to meet President William L. Veech, of the Cubs, and signed the contract.

BOY OF 15 GETS LIFE SENTENCE FOR MATRICIDE

St. Clairsville, Ohio, March 8.—(AP)—Andy Dyken, 15-year-old slayer of his mother, who was sentenced to life imprisonment in Ohio penitentiary this morning, attempted to commit suicide by hanging himself in his cell shortly after he was taken from the courtroom.

Guards overpowered him when they found him fastening his belt around his neck. Sheriff T. C. Hardesty revealed it was the second attempt by the boy to take his life in the last 24 hours. A piece of steel, which he had taken from his cot, sharpened to a fine edge, was taken from him last night.

Sheriff Hardesty said that Dyken remarked to another prisoner last night that he knew a way to escape a term in the penitentiary and that he intended to "turn the trick."

The sheriff said special guards will be placed near Dyken's cell until he is taken to the penitentiary next Tuesday. He pleaded guilty to a second-degree murder charge this morning on an agreement of counsel and was sentenced to life imprisonment at hard labor in the Ohio penitentiary.

The evening of December 6, 1927, Dyken shot his mother to death as she stood in the doorway of their farm home, and when his father, Nick Dyken, and a farm hand attempted to wrest the shotgun from him, shot them.

Dyken appeared pleased with the outcome. He said he was looking forward to automobile ride from St. Clairsville to Columbus, and told newspapermen "all he wanted was good clothes and plenty of cigarettes."

Dyken's father was in the courtroom. Dyken looked at his mother, marked: "Well, I suppose the old man's satisfied now."

His father has been outspoken in favor of Dyken's conviction. "The shooting which caused his arrest followed a reprimand administered by his parents for not attending school. In court Dyken testified that his father had abused him and asserted he did not intend to shoot his mother. He said he thought it was his father who came to the door in the dusk of the December evening."

COMMERCIAL FLIER IN FATAL CRASH AT CURTISS FIELD

A CRACKER A DAY TO-DAY

BY BEN COTHRAN.

Somebody has just told the young man at the right that joke about—well, it was a good joke, and accounts for the grin.

The owner of this sign of pleasure is Ray Francis, of whom, if you ever read the papers during the spring and summer, you've heard. He's a pitcher. Left-handed. Has been with Atlanta, off and on, for four years. When Ray really tries his best he can pitch winning baseball in any man's league, including the majors. This year Mr. Francis came back to Atlanta with a deal with the Boston Red Sox fell through, whereby Ray was to go to Boston and a pitcher, Goldsmith, come to Atlanta. When the deal flopped, the Spiller management contemplated trading him.

Francis, however, after several conferences, convinced Messrs. Spiller and Niehoff that he would pitch good ball if allowed to remain with the Crackers. He has been hard at work every day this week and it's beginning to look like a good year for the big showman.

Ray first saw the light of day something like 28 or 29 years ago in the southern town of Sherman, Texas. Just as soon as possible he began playing baseball.

In 1917 he made his debut as a professional with the San Antonio, Texas, club, and stayed there for three years. 1920 saw him advance again in the right direction—higher and he played a season with Seattle in the Pacific Coast league. The Washington Senators had him on their lineup during the seasons of 1921-22. In 1923 he jumped to Detroit. The following year, 1924, brought Francis to the Crackers. He helped win the pennant in 1925. And performed so effectively in doing it that the Yankees took him up for the year 1926. In the middle of the season he came back to Atlanta and has been here since that time.

Ray, who attains the height of 6 feet 1 inch, when ready for bed, and the weight of 188 pounds, reported last Monday in good shape. Just from the way he works one gathers the feeling that a good number of the games he pitches this year will be added to his Atlanta's "won" column.

STEWART PUTS UP \$5,000 TRIAL BOND

Chicago, March 8.—(P)—Colonel Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana, today signed a \$5,000 bond for his appearance for trial at the next term of the district court of Columbia on charges of contempt of the United States senate for refusing to answer questions of its Teapot Dome investigating committee.

Edward Eagle Brown, vice president of the First National bank of Chicago, also signed the bond for security.

Colonel Stewart refused to comment on the warrant, which charged him with violating section 102 of the criminal code in four instances. He shook hands with United States Commissioner James R. Glass and his assistants who read the warrant to him. To persistent questions of newspapermen, he merely smiled and asked them to "please let me alone as I have nothing to say, and, anyway, I am here only on business."

The only excited person in the group in the commissioner's courtroom was Commissioner Glass. First, he said the required bond was \$500,000, then \$500 and, finally, \$5,000. Colonel Stewart was accompanied by two attorneys and Mr. Brown.

Colonel Stewart was indicted on the contempt charges when he refused to "personal reasons" to divulge to the committee what he knew of the Continental Trading Company, Ltd., bond deal.

A Beautiful Woman is a Joy to the World

Mrs. C. B. Smith

Jacksonville, Fla.—"For womanly ills I know of nothing better than Dr. Pierce's Favorite Prescription. I was suffering from feminine trouble and became all run down in health. I was nervous and weak, could not sleep, had no strength nor energy to do anything—had a draggy, heavy, worn-out feeling. I took Dr. Pierce's Favorite Prescription and it strengthened my nerves and I grew weak and strong. I would advise any weak woman to take it."—Mrs. C. B. Smith, 1108 East 15th street.

You can always find this Prescription of Dr. Pierce's in your neighborhood store, in tablets or liquid.—(adv.)

Watchman Bound Chicago Concern Safes Are Looted

Chicago, March 8.—(P)—Two robbers bound watchmen of the Borin Manufacturing Company of Cicero early today and looted safes of \$715,000 in non-negotiable securities and jewelry.

They also took patent formulas, contracts and a list of customers of the company, manufacturers of picture frames and mirrors, which President Nathan said were worth \$300,000.

The loot included \$500,000 in non-negotiable stock of the company, \$100,000 in stock of each of two subsidiary firms, the Master Art corporation and the Limits Industrial corporation; \$8,000 in stocks and bonds owned by Borin, and \$7,000 worth of jewelry belonging to Mrs. Borin.

The president of the company, who owned approximately 90 per cent of the missing stock, said he believed it was an "inside job."

Gaining entrance through a coal chute, the robbers, one of whom was masked, overpowered the engineer, and the watchman. Both employees were bound and guarded by one man, while the other obtained tools from the engineers and broke open two safes in the office.

The stocks were negotiable when stolen, but all were ordered cancelled today by the Borin company and will be worthless to the thieves.

DAVISON TO FLY TO PANAMA CANAL AND TO NICARAGUA

Washington, March 8.—(United Press.)—Assistant Secretary of War F. Trubee Davison plans to make stops at the naval air station at Pensacola, Fla., and at the marine flying field at Managua, Nicaragua, on his forthcoming flight to the Panama Canal zone, Davison announced today.

The commanding officer at Pensacola and Managua have been notified by the navy of Davison's visit and will place every facility at his disposal. Davison is to be accompanied by Major General Fehet, head of the army air corps.

How to Stop Skin Itching In 2 Minutes

If you suffer from skin eruptions of any kind, pimples, itch, tetter, ringworm, eczema etc., a pleasant ointment, known as Tetterine, containing highly effective parasite, germ-destroying and skin-healing properties, never fails to bring quick and permanent relief.

Tetterine, by its clean, cooling, soothing, antiseptic effect, kills the parasites that bore into the skin, causing irritation and itching. Tetterine is sold and guaranteed by all druggists at 60c for a large box, or sent direct, postpaid, upon receipt of price. Shuptrine Co., Dept. 5, Savannah, Ga.—(adv.)

6 GALLONS OF CORN FOUND AS POLICE MAKE THIRD RAID

The third visit of officers to the home of J. W. Hindman at 644 Highland avenue, revealed six gallons of corn liquor in a trap in the front room, according to charges made Thursday in a preliminary hearing before the United States commissioner. Officers said that Hindman already is under two bonds as the result of previous raids, and he was placed under a new bond of \$250 Thursday for the alleged third liquor seizure.

Hindman claimed that he did not put the liquor there, according to officers, who said that on previous visits, 15 gallons were found in the garage, and a gallon in another hiding place. Zephire Hinton, of 21 Yonge street, N. E., was placed under \$200 bond for alleged possession of seven gallons of whisky. Six gallons were found in a trap under the house and the other gallon in the kitchen, officers said.

B'NAI B'RITH PLANS DRIVE FOR \$18,000

Members of the Gate City lodge, Order of B'nai B'rith, are planning a campaign to obtain Atlanta's quota of \$18,000 as a part of a national fund of \$2,000,000 to be used in winning Jews to Judaism, and Joseph N. Reisman, of Atlanta, has been appointed chairman for the state of Georgia, according to announcement Thursday.

One-half of this national fund will be used in establishing Hillel foundations at the greater of American universities, their function being to assist the Jewish college youth of this country to obtain a knowledge of and gain a reverence for the historical and cultural background of his people. One such foundation is being considered for the University of Georgia, at Athens, where Rabbi Joseph Utchen already has laid the groundwork.

Five of these foundations already are in existence at the Universities of Illinois, Wisconsin, Ohio, Michigan and California. The other \$1,000,000 will be used in furthering the work of the Anti-Defamation league, the Aleph Zadik Aleph, a junior B'nai B'rith, and the Garden City, a model home colony in Palestine. The Anti-Defamation league is the only Jewish organization in America with the definite purpose of fighting the spread of anti-Semitism, and already the suppression of libelous jokes and caricatures in the American press and on the American stage has been carried on at length.

Mr. Reisman, as chairman for the state, and J. H. Wilensky, as treasurer, will work under H. A. Alexander, of Atlanta, who is chairman of district No. 5, in which Georgia is included. Henry Monsky, of Omaha, is chairman, and Dr. Boris D. Bogen, of Cincinnati, is executive director of the national organization.

The members of the campaign committee in Atlanta are Dr. David Marx, Milton Klein, Joseph B. Wolfe, Leonard Haas, Louis H. Moss, Hyman Jacobs and Louis J. Levitas.

Alfred M. Cohen, international president of the organization, made the appointment of Mr. Reisman in Atlanta.

Col. Carpenter Given Military Post in Berlin

Colonel Edward Carpenter, of 218 Fifteenth street, who has been Fourth Coast Artillery commander since August with headquarters at Fort McPherson, is to go to Berlin as military attaché in the foreign service, leaving Atlanta day 1, according to announcement Thursday.

Colonel Carpenter's orders are to report in Washington May 1 for temporary duty in the office of the assistant chief of staff for military intelligence.

Lieutenant Colonel Pat M. Stevens, 63 Peachtree place, is to go to Griffin, Ga., as instructor of infantry in the Georgia national guard July 1, the announcement said. Colonel Stevens is now on duty with the organized reserves of the Eighty-second division.

Lieutenant Colonel Charles L. Foster, now of the office of surgeon general in Washington, is to report for duty at Fort McPherson May 14.

Lieutenant Colonel Christian A. Bach, cavalry, has been detailed to the inspector general's department at Fort McPherson, effective August 14, apparently to take the place now held by Major Rollin L. Tilton, who has been ordered to attend the next advanced course at the coast artillery school at Fort Monroe, Va.

Captain Hugh P. Oram, engineer, now on duty at Florence, Ala., has been ordered to attend the next school at Fort Humphrey, Va.

Southern Dictaphone Men Meet National Chiefs Here

Left, L. C. Stowell, president of the Dictaphone Sales corporation of New York, and E. N. Brown, district manager here.

The southeastern division of the Dictaphone Sales corporation will hold a conference at the Ansley hotel today and Saturday in celebration of prosperous business during the past year and to lay plans for an even greater business for the coming year. The conference will be followed by a banquet tonight at the Ansley civic dining room.

In attendance will be officers of the company from New York, including L. C. Stowell, president; Merrill Sands, vice president, and George C. Smith, executive officer, and the following managers and salesmen: E. N. Brown, district manager; N. C. Hale, New Orleans; William H. Sharpe, Birmingham; J. W. Clark, Jacksonville; T. K. Creson, Memphis; J. J. Humphreys, Nashville; Harold Humphreys, Chattanooga; R. W. Zoll, Tampa; C. M. Yarbrough, Savannah; Carey Parker, Atlanta, and Guy A. Burns, Charlotte, N. C. In addition to the outside representatives, the entire Atlanta organization will be in attendance at the banquet, together with a few outstanding Atlanta citizens and executives of business concerns.

The representatives out of the Atlanta office have pledged themselves to make March the greatest month they have ever had and will strive to make 1928 break all past records, officials said Thursday.

The annual report of the Dictaphone corporation made public by President Stowell shows that the year ending December 31, 1927, was the most profitable in the history of the corporation. Net profits were \$512,000.02 after all charges against the year's operation with adequate provision for depreciation and taxes, he said. Mr. Stowell further reported that gross sales for 1927, both domestic and foreign, showed gains over 1926, and added that public acceptance of the Dictaphone is growing rapidly.

Sales so far in 1928 give indication of a substantial increase in this present year even over this new record for 1927," he continued. "The new line of dictaphones in colors is already a contributing factor."

Temporary duty in the office of the assistant chief of staff for military intelligence.

Lieutenant Colonel Pat M. Stevens, 63 Peachtree place, is to go to Griffin, Ga., as instructor of infantry in the Georgia national guard July 1, the announcement said. Colonel Stevens is now on duty with the organized reserves of the Eighty-second division.

Lieutenant Colonel Charles L. Foster, now of the office of surgeon general in Washington, is to report for duty at Fort McPherson May 14.

Lieutenant Colonel Christian A. Bach, cavalry, has been detailed to the inspector general's department at Fort McPherson, effective August 14, apparently to take the place now held by Major Rollin L. Tilton, who has been ordered to attend the next advanced course at the coast artillery school at Fort Monroe, Va.

Captain Hugh P. Oram, engineer, now on duty at Florence, Ala., has been ordered to attend the next school at Fort Humphrey, Va.

'FIRED' WORKERS ENJOIN TALMADGE

Terming Commissioner of Agriculture Eugene Talmadge's attempt to remove them from office "arbitrary, illegal, wanton and malicious," three state fertilizer inspectors Thursday petitioned Fulton superior court to enjoin Talmadge from dismissing them. A temporary restraining order was granted by Judge Virlyn B. Moore, who set March 17 as the hearing date.

According to the petitioners, R. L. Russell, of Danielville; A. A. Seymour and I. H. Fowler, both of Elberton, all of whom are appointees of former Secretary of Agriculture J. B. Brown, Talmadge notified them the first of this month to appear at the capitol March 3 to "show cause why they should not be dismissed on the ground of incompetence, neglect of duty and malfeasance in office."

All three alleged they had not been assigned any duties under the Talmadge regime, which they were "ready and able at all times to assume." The plaintiffs attacked the constitutionality of a Georgia statute under which they were dismissed, and charged an attempt to oust them with out a chance to answer the allegations of Talmadge.

In Fowler's petition he contends Talmadge appointed a successor, B. L. Bullock, of Madison county, before legal vacating the office. All three inspectors declared Talmadge had refused to furnish them with a copy of the charges they were expected to face.

Talmadge's answer to the petition sets forth that the three men were incompetent and negligent in the discharge of duty, while maintaining his right to dismiss them.

The petitioners asked that Talmadge be prohibited from conducting a hearing until the matter can be settled in court.

J. T. Sisk, of Elberton, was attorney for the plaintiffs.

MRS. HENRY PEABODY SPEAKS HERE SUNDAY

Mrs. Henry W. Peabody, of Beverly, Mass., national chairman of the Woman's committee for law enforcement, a body composed of representatives from eight large women's organizations, will speak at the First Baptist church at 2:30 o'clock Sunday afternoon, under the auspices of the state committee, it was announced Thursday.

Mrs. Peabody will speak at 11 o'clock Monday morning at the regular gathering of the Evangelical Ministers association, which is also to be held in the First Baptist church.

A luncheon at which Mrs. Peabody will be honor guest is to be held at the Henry Grady hotel at 1 o'clock in the afternoon.

been ordered to attend the next advanced course at the coast artillery school at Fort Monroe, Va.

Captain Hugh P. Oram, engineer, now on duty at Florence, Ala., has been ordered to attend the next school at Fort Humphrey, Va.

Examine Dead in Effort To Save Ailing Relatives

Michigan City, Ind., March 8.—(P)—Examination of the vital organs of two boys who died under puzzling circumstances was being hurried today in an effort to save from death their uncle, who is seriously and mysteriously ill.

Orvilla, 2, and Richard, 4, children of Mr. and Mrs. George A. Bohle, died suddenly several days ago of a malady which baffled physicians. William Sims, their uncle, spent several days in the Bohle home prior to the sudden deaths. He was stricken yesterday. Doctors hope the examination in the case of the two children will give them information that will save Sims' life.

Other members of the Bohle and Sims family are being kept under close observation by physicians.

Coroner Mayfield said a post-mortem examination over the boys' bodies suggested the possibility that a slow acting poison may have caused death.

Request for Trees.

Waycross, Ga., March 8.—The \$5,000 bequeathed to the city of Waycross by the late Albert W. Gilchrist has been paid to the city commission. This bequest is to be placed on interest and the income each year is to be devoted to the beautification and development of the park in Gilchrist Park, the suburb promoted and developed by Mr. Gilchrist.

Highway Reopened.

Waycross, Ga., March 8.—The Waycross-Valdosta highway, closed for the past week because of flood conditions on the Alapaha river between Homerville and Valdosta, has been opened to traffic, it is announced by the Waycross office of the state highway department.

Traffic for the past week has been routed via Lakeland.

Don't Be "Skinny" and Scrawny!

Build up Weight in 3 Weeks with New Combination of YEAST and IRON—or Pay Nothing Pleasant Because Tasteless

"I Gained 10 Pounds"

"For over a year I had no energy or ambition. My complexion was muddy, I could not sleep at night. I fell off in weight until I was but a shadow of my former self. After taking one treatment of IRONIZED YEAST I feel like a new woman. My complexion has cleared up wonderfully. I have gained 10 pounds, and I am full of energy."—(Mrs. M. B. Chicago, Ill.)

It seems incredible how fast IRONIZED YEAST adds pounds of good firm flesh—on women and men, children and old people. Doctors know the value of vegetable iron and yeast in building up and improving the body. IRONIZED YEAST, in a highly concentrated form, contains all the blood-building properties of vegetable iron with yeast.

New Complexion For You

People ask—what is the magic in IRONIZED YEAST that transforms sallow, lifeless, faded complexions into the fresh, smooth, lovely skin of early girlhood? Wrinkles disappear. Eyes renew the sparkle of youth. Hollows fill out.

Ironized Yeast is two tonics in one—weight-building Yeast and strengthening Iron. The yeast is the same used in making malt and which makes malt so beneficial. It is specially cultured yeast concentrated to give the utmost in flesh-producing value.

Only when Yeast is Ironized in this way is it more effective—for Iron is needed to bring out the weight-building, strengthening value of Yeast. That's why IRONIZED YEAST works so quickly.

So get a generous test treatment—pleasant tasting tablets in a handy bottle. No nasty party taste. No hot cause gas or bloating. Safe for everybody—containing no harmful drugs.

Try It on "Money-Back" Offer

Go to any drug store and get a full size treatment. If after this generous trial you are not delighted with effects, ask for your money back. It will be refunded immediately. If inconvenient to buy from druggist, send \$1.00 to THE IRONIZED YEAST CO., ATLANTA, GA., Desk

CAUTION! While the amazing health-building value of IRONIZED YEAST tablets has been clearly and positively demonstrated in cases of lack of energy, indigestion, constipation, skin eruptions, poor complexion, and a generally weakened physical and mental condition, IRONIZED YEAST should not be used by anyone who OBJECTS to having weight increased to normal.—©1927—J. Y. Co.

Heifetz Concert and Benefit Musical Center Interest

Society's trend of thought, diverted from things of a lighter vein by the penitential days of Lent, follows with sincerity the pursuit of cultural and educational lines. Atlanta music lovers will be gratified at the offering today of a series of important musical events which feature the concert.

Joseph Heifetz, the world-renowned Russian violinist, who came to us out of the world war, returns this evening in a concert at the city auditorium. Those who have heard this master artist will again thrill to his excellence of tone and quality under the bow, as well as numbers who will hear for the first time his interpretations of majestic beauty. Society will assemble en masse at 3 o'clock this afternoon at the musical, arranged and sponsored by the house committee of the woman's auxiliary to the Wesley Memorial hospital, and to be given at the home of Mrs. Henry Heinz. An excellent program which includes a group of the city's most talented young artists has been arranged under the direction of Mrs. William Burt Griffith, Mrs. Mary Griffith Dobbs and Mrs. L. Ella Griffith Bedard, with Mrs. John Stator as chairman of the house committee.

Founders' day will be observed by the Sigma Alpha Epsilon fraternity with the annual banquet to be given at the Piedmont Driving club this evening at which time several hundred members of the fraternity and their guests will be entertained.

S. A. E.'s To Celebrate 72d Anniversary.

Members of the Sigma Alpha Epsilon fraternity celebrate its founding Friday evening at a dinner-dance at the Piedmont Driving club, the fraternity having been founded 72 years ago on March 9, 1856. Atlanta Alumni association and members of the S. A. E. chapters at Georgia School of Technology, University of Georgia and Emory university will commemorate the founding of the fraternity founded by Noble Leslie DeVoe, of Tusculum, Ala.

Dr. W. G. Henry To Give Lecture.

Dr. W. G. Henry, of Emory university, widely known and beloved professor, will lecture on his travels in the Holy Land and various places abroad, Friday evening at 7:30 o'clock at Paynes Memorial church, corner of Hunnicutt and Luckie streets. A short musical program has been arranged including a piano solo by Miss Nannet Reaschman, vocal solo by Mrs. George Sims, and piano solo by Mrs. C. D. Hancock. The public and friends are invited. No admission charged.

Mrs. Brown To Honor Spring Bride-Elect.

A number of informal parties are being planned honoring Miss Corinne Lee King, whose marriage to Junius Randolph Edmundson will take place March 31.

Saturday afternoon, Mrs. Luther C. Brown will entertain at a miscellaneous shower at the home of her mother, Mrs. Annie King, on Ponce de Leon avenue, N. E., in compliment to Miss King.

Assisting Mrs. Brown in entertaining will be her mother, Mrs. Annie King, and her sister, Miss Alma King. The exact dates of other parties being planned for Miss King will be announced later.

Y. W. A. To Honor Episcopal Women.

The Episcopal young women interested in the work of the auxiliary, who come from all over the diocese of Atlanta, will be the guests of the Y. W. A. of St. Philip's cathedral at the meeting Saturday, March 10. At this time Mrs. D. D. Taber will address them at 6 o'clock.

Mrs. Robert Williamson, Jr., has been appointed chairman of the dinner committee and Mrs. Benjamin Hargrave chairman of the decorating committee by the president, Enid Kelly.

Polo Season At Fort McPherson Opens in April

Fort McPherson, March 8.—The Polo and Riding club of Fort McPherson, although the most recently organized club of the fort, is far from being the most unimportant. The ladies' riding class and the polo team are two of the club's achievements. Particular interest just now centers around the polo stables, for the training of the ponies is going forward in anticipation of the polo season, which opens at the garrison April 1. At present the available ponies for polo are "Tiger Lily" and "Tessie," favorite mounts of Major Gustav Frank, and "Kana," Lieutenant Gilbert Proctor's famous pony, who has seen fast tournament play in the west. The "Key," a versatile horse, the field of in the show ring, "Clarice" and "Black Diamond," ridden by Captain Albert G. Wing, and "Buddie" and "Bourbon" mounts of Lieutenant Robert Foster, and "Moonlight" and "Corn Liquor," ridden by Lieutenant R. E. Hunter, with a bit more training will make clever polo ponies.

The vespers service, conducted by Chaplain John Hall in the post chapel Wednesday afternoon, was well attended by the post personnel. Chaplain Hall plans to conduct the service each Wednesday during Lent, just after retreat.

Battalion parade held by the Twentieth Infantry Thursday afternoon at 4 o'clock was a picturesque ceremony. Groups of civilians and army people motored out from the station to meet garrison friends and enjoy the parade.

The feature of the week at Fort McPherson is the brilliant hop to be given Friday evening, March 9, at the Officers' club in especial compliment to General and Mrs. Abraham G. Lott.

Fulton Chapter, U. D. C. Offers Essay Medal.

Fulton chapter, U. D. C., met Tuesday afternoon in the mahogany room of the Ansley hotel with Mrs. L. D. T. Quimby, president, presiding. The president, through the chapter, will give a medal to the pupil in the Fulton high school writing the best essay on "Alexander H. Stephens." Mrs. J. L. Jepson was appointed essay judge and will select two members of her own committee, non-members of the chapter. Mrs. H. G. Andrews, chairman of Soldiers' Home committee, outlined her plans for the Easter party to be given Fulton county veterans at the Soldiers' Home. Mrs. E. B. Williams, custodian of crosses, reported six crosses to be presented June 3.

It was pleasing to the members of the chapter to hear that Mr. Rothell, the young man endorsed for the University of Virginia scholarship, given through the Georgia division U. D. C., had been announced winner. A committee was appointed to write resolutions on the death of two of the oldest members, the late Mrs. Benjamin Sells and Mrs. Thomas Latham, and Mrs. Sam D. Jones, president of the Service Star legion. Members are requested to save articles for a rummage sale. The historian, Mrs. Jepson, read a paper. The chapter will have an open meeting in April and each member may bring a friend. Mrs. Patricia Bragg, program chairman, will arrange a program and refreshments will be served. Three new members were received into the chapter and Mrs. Palmer reported four U. D. C. pins recently ordered.

Bishop Mikell's Class Meets This Afternoon.

The time of meeting of Bishop H. J. Mikell's Bible class has been changed for this week owing to the mission being held in the church for Friday, March 9, at 3:30 o'clock in All Saints church. The course is "Bird's-Eye View of the Bible," with special reference to the great revelations of God's dealing with man. The class is interdenominational and cordial welcome is extended to all interested persons to attend.

DAILY CALENDAR OF WOMEN'S MEETINGS

The executive board of the Atlanta Woman's club meets Friday morning at 10:30 o'clock at the club.

Mrs. Tros Bankston, of Covington, state president of U. D. C., will be honor guest of the Agnes Lee chapter, U. D. C., at the meeting at 3 o'clock at the chapter house in Decatur.

Bishop Mikell will lecture at 3:30 o'clock at All Saints' Episcopal church.

The 1918 history class meets this afternoon with Mrs. George McCarty, Jr., at Joyeuse, her home on Peachtree road.

Alpha Chi Omega fraternity meets at 3 o'clock at the Baltimore hotel to meet Mrs. Ellis Crosby, the Atlantic Province president.

The Business Women's circle of the Kirkwood Baptist church meets at the home of Mrs. G. F. Howard, 2089 Boulevard drive, S. E., at 7:45 o'clock.

SOCIAL ITEMS

W. J. Currier, of Portland, Maine, and C. D. Mauk, of Chicago, Ill., are at the Georgia Terrace.

Mrs. Charles H. Phinizy, of Augusta, and Mrs. Walter Jones, of Athens, are well known visitors at the Biltmore.

Miss Mary Hosely has returned from Greenville, S. C.

Mrs. W. L. Houser, of Fort Valley, Ga., is stopping at the Biltmore.

Mr. and Mrs. Arthur F. Burrows, Mr. and Mrs. W. Riegel, Misses Doris and Virginia Riegel, of Rochester, N. Y., are at the Biltmore for a few days.

Mr. and Mrs. P. N. Montague, Misses Anna and Delphine Brown, and Mr. and Mrs. George W. Coon, all of Winston-Salem, N. C., arrived Thursday by motor and are stopping at the Biltmore.

Mr. and Mrs. Richard S. Buel, of Chicago, Ill., are at the Biltmore.

Mr. and Mrs. Wade H. Davis and Mrs. A. J. Stitt have returned to Atlanta after a motor trip through Florida.

Mr. and Mrs. Oscar Newton, Mrs. Hugh Foster and Mrs. Snowden McGahey have returned from a motor tour of Florida.

Miss Mary Louise Roberts is recuperating from a recent operation at the home of her mother, Mrs. Louise Roberts, 536 Highland avenue, N. E.

Mr. and Mrs. Frank Hawkins have returned from an extended motor trip through Florida.

Mrs. Bessie Harmon Lindsey returned recently from Charlotte, N. C., where she visited for several weeks.

Laughing Minstrel At Y. W. C. A. Tonight.

The final performance of "The Laughing Minstrel," 1928 edition of the annual black-face comedy frolic presented by the Business Girls' league of the Y. W. C. A., will be given Friday evening at 8 o'clock at the Y. W. C. A. building, 37 Auburn avenue, the first performance Thursday evening having played to a large and enthusiastic audience. Admission is 35 cents.

Much credit for the success of the production goes to Miss Ethel Reed, director, who was also in charge of the two previous minstrel shows given by the league. Members of the cast who have prominent roles in the clever entertainment include Miss Pearl Frederic, interactor; Mrs. Elizabeth C. Fields, Miss Dot Davenport, Miss Dot McLaughlin, Miss Ora Dozier, Miss Ruth Palmer and Miss Nell Green, women; and Miss Frances Nicholson, Miss Louise Brooks, Miss Mary Nell Smith, Miss Marion Smith, Miss Annie Mae Paris, Miss Katherine Arnold and Miss Mildred Wells.

Dr. and Mrs. Cooper Honored at Reception.

Dr. and Mrs. M. A. Cooper, who have recently come to Atlanta to make their home, were entertained Monday evening by the membership of the West End Baptist church. Dr. Cooper having accepted the pastorate of the church.

Mrs. T. H. Stewart, president of the Woman's Missionary society and official hostess, was assisted in receiving by Mrs. J. M. Manry, past president and chairman of arrangements. Others receiving were Mesdames T. D. Boddy, W. D. Marshall, Harvey Clarke, Tom Pitts, Cooper and Dr. Cooper. E. J. White, chairman of board of deacons of West End church, was master of ceremonies.

G. Cooper gave a brief history of the church from its beginning 41 years ago with Dr. S. Y. Jameson as its first pastor, who was succeeded by Dr. T. W. O'Keller. He paid tribute to the late Dr. John F. Purser, who was pastor for 17 years, and also to Dr. Seay's record as pastor. Music was furnished by the choir of the church, including, in addition, "I Meant To Do My Work Today," sung by Mrs. William Modena, soprano soloist. Mr. White introduced the honor guests to the congregation. Mrs. E. J. White chairman of refreshments, was assisted by Mesdames J. P. Snellgrove, Jesse Armstrong, W. M. Hicks, A. P. Stewart and Tom Branch and Misses Nellie Sheffield, Jessie White, Lillian Childs, Betty Boddy, Janet Branch, Mrs. Frank Hatcher and Mrs. Clark Layton. Mrs. L. T. Layfield and Mrs. W. C. Jenkins had charge of decorations.

Mrs. Joseph Moody Is Luncheon Hostess.

Mrs. Joseph Moody entertained at an informal luncheon Thursday at Druid Hills Golf club, complimenting Mrs. Everett A. Wadhams, of Pittsfield, Mass.

"Magnolia Gardens" Reach Full Bloom Between April 6-12

Magnolia Gardens, the beauty spot of South Carolina, covering 20 acres of land, located twelve miles from Charleston, S. C., will be in full bloom from the latter part of March to April 21, with the blossoms reaching the height of the season between the dates of April 6 and 12, authorizing for publishing these dates having been given by Mrs. W. W. Menninger, whose brother, Norwood Hastie, owns and resides at Magnolia Gardens.

Miss Marie Clinton Hastie, another sister of Mr. Hastie, has written a concrete history of the gardens, which may be procured at Miller's, Lester's and the Peachtree Exchange. The sketch contains interesting data relative to the creation of the gardens by John Drayton, grandfather of the present owner, in 1671, and according to the English custom is being inherited by the oldest son in every generation.

Miss Hastie's book is entitled "Magnolia On the Ashby," and furnishes very valuable information to those planning to visit the famous site while the gardens are in full bloom.

Mr. and Mrs. Norwood Hastie, the aristocratic owners, reside at Magnolia Gardens the year round. They have three children, Norwood, Jr., John Drayton, namesake of his great grandfather, and Sara Hastie, a charming little girl of seven years of age.

Mrs. Ashby Addresses Wilkinson Chapter.

The last regular meeting of John R. Wilkinson chapter was held Monday evening in its hall on Ashby street. Mrs. Drury Combee, worthy matron, conducted the meeting, and the degree work was given.

Mrs. Rose Mae Ashby, worthy grand marshal of the general grand chapter, was present and gave an address. A musical program was given by Mrs. Belle Haley, past grand organizer; Mrs. Annabel Cape, past grand matron of Capital City chapter; Mrs. Kate Bussey, past matron of Oakland City, and Mrs. Moorehead and Mr. J. H. Egan, of Elberta chapter. Mrs. Ashby and Mrs. Anna Davis, grand warden, and others received beautiful gifts from Mrs. Haley, the presentation being made by Mrs. Binkalew, past matron of the chapter.

Mrs. Tharpe Is Bridge Hostess.

A lovely social event of Wednesday was the bridge-ten at which Mrs. R. W. Tharpe was hostess at her home, 1130 Piedmont avenue, honoring the name of Captain City chapter. Mrs. John Drayton, namesake of his great grandfather, and Sara Hastie, a charming little girl of seven years of age.

A charming arrangement of jonquils and daffodils adorned the room where the guests were received.

Mrs. Tharpe was assisted in receiving by Miss Helen Clements. Following the game, tea was served.

The guests included Mrs. Mangier, Mrs. J. R. Siebert, Mrs. L. L. Antel, Mrs. George Katz, Mrs. E. E. Armstrong, Mrs. W. W. Edwards and Miss Helen Clements.

St. Philip's Aid Announces Menu.

The ladies' aid of St. Philip's cathedral will serve baked chicken, egg bread dressing, steamed rice, giblet gravy, best yet relish, candied yams and buttermilk biscuit for 25c per plate at the lunch room Friday, Fish plate, East Coast fish tartar sauce, mashed potatoes, best yet relish, corn-sticks or buttermilk biscuit, 25c plate. Dessert, choice of home-made pies—lemon, cream, apricot, 10c. Hunt-ers' pudding with chocolate sauce, 10c. Sweet milk, buttermilk, tea or coffee, 5c.

The committee includes Mrs. Harry G. Greer, chairman; Mrs. Bessie Roberts, Mrs. Eugene Crigton, Mrs. A. D. Boylston, Mrs. Brander Barker, Mrs. Fred Williams, Mrs. H. F. Goldrey, Mrs. Evans Butler, Mrs. Henry Goldrey, Mrs. W. R. Ritter, Mrs. B. L. Owens, Mrs. Pat Stephens, Mrs. Earl Williams, Mrs. Deford Smith, Mrs. Myrtle Williams, Miss Elsie Pioda, Miss Billy Ritter, Miss Lawrence Thompson, Mrs. David B. Mitchell, president. Menu changed daily.

Membership Cards For Gabrilovitch.

Ossip Gabrilovitch, world famous pianist, will be presented in recital by the Atlanta Music club, Saturday afternoon, 3 o'clock at the Woman's club auditorium. This is the final concert on the "Matinee Series" for which the gray membership card is to be used. Members who have not used their cards for the entire series of afternoon concerts are entitled to use the allotment on Saturday, according to the statement given out by Mrs. Wilmer L. Moore, president of the club.

Mrs. Mize Honors Miss Nellie Wallace.

Miss Nellie Wallace, bride-elect, was center of figure at the linen shower and tea at which Mrs. C. W. Mize entertained Thursday afternoon at her home on Center street. The guests included a group of friends of the honoree.

Prominent New York Visitor To Be Honored at Luncheon

Mrs. John K. Otley entertains at an informal luncheon Saturday, March 10, at the Piedmont Driving club in compliment to Mrs. Charles Vilas, of New York, one of the most prominent visitors in Atlanta, who accompanied her husband, Mr. Vilas, a very distinguished member of the New York bar association, and they will be spending a week in the city at the Biltmore.

Mrs. Vilas is a very celebrated and gifted poet, playwright and author whose verse has appeared in leading magazines and also published in book form. She is a member of the National Poetry Society of America, Poet of the Year, and a poet laureate of the New York branch of American Women, publicity chairman of the Federation of Music Clubs, and of Plays and Poets of the United Neighborhood Houses. In her book "Wonder Thoughts of Childhood," affectionately dedicated to her children, she has exquisitely interpreted child thoughts and feelings to grown-ups and children, carrying a profound impression of the author's real sympathy for children's thoughts and feelings. She writes under the name of Faith Van Valkenburgh Vilas, and in talking of the book she charmingly expressed herself by saying: "Whatever merit my poems possess lies in the fact that they are the wonder thoughts of flesh and blood children, approached with the awe and reverence a mother must feel for that most marvelous flower in earth's garden—the soul of a child."

"The Drummer of Fyvie" and "Other Verse" expresses her innate vitality, highly sensitized poetical intelligence and sound technique. The poem expressing a poetical picture of Fyvie Castle in Scotland. Katharine Tilt Jones, formerly of Tifton, Ga., and an exceptionally gifted reader, read her poem, "Home," before the Poetry Society of America, and it was awarded second place in the honor contest, the poem being accompanied by an etching and suggestive musical theme. An Oriental fantasia, "The Maker of Souls," of two acts and a prologue with musical accompaniment, won high rank and recognition. Its first presentation was given by the Beechwood Poetry society at the Beechwood playhouse in May, 1920. The Women's club of Great Neck, L. I., produced it in 1922, and the Knox school at Coopers town, N. Y., presented the fantasy in 1927.

Mrs. Vilas is a brilliant conversationalist, possessing musical charm and magnetism. She is a native of Milwaukee, Wis., and began to write poems at the tender age of 11, and took a leading part in amateur theatrical productions when a student at Milwaukee Women's college. She is invited to read her poems before the most representative audiences in the metropolis, and her "Talks On Poetry" are replete with cultural valuation. Mrs. Vilas has to her credit the authorship of 14 plays, all but one having been published.

Mr. and Mrs. Gershon Leave for Europe.

Mr. and Mrs. Sam Gershon and family leave Monday, March 12, for New York from whence they sail for Europe, and will visit relatives in Great Britain, Poland, and will also spend several weeks in Paris and Berlin.

Dean Johnston To Give Lecture.

Dean Thomas Johnston will address the Every Sunday school, March 10, at the home of Mrs. John M. Slaton at 11 o'clock in the morning on "Indian Problems."

Ellis-Pearce Wedding Cards Issued.

Priscilla Ellis has issued invitations to the marriage ceremony of her daughter, Annie Stuart, to Edmund Fay Pearce Wednesday, March 21, at 5:30 o'clock in All Saints church.

I HAVE SAID IN MY HEART

BY IDAH M'GLONE GIBSON.

IS EVERYONE LONELY?

A little foursome of congenial people—two men and two women—were dining together the other evening.

All of them had a certain amount of culture without being snobbish about it. All of them had traveled much and all were over forty. The men were bachelors, the women were widows.

One of the women spoke of the great loneliness of her sex, but the other took a contrary view.

"I do not think women have any less pleasure in this world than men, if they will take it," she said.

"I know it is quite the thing when four or five men are seen together about a dining table to think they are having so much better time than the three or four women at another."

"The whole truth of the matter is that all human creatures are solitary. They live and die alone, even surrounded by numberless friends and relatives."

"Most of us are too much interested in ourselves to care very much about the interests of neighbors or acquaintances."

One of the men then said: "I have been lonely all my life but I confess that I have been afraid that if I married I would be bored and I have such a horror of that that I have not had the courage to marry."

The other man entered the conversation here. "That is the tragedy of life. We get tired and bored with everything—even the thing that interests us most—so soon."

The act of attaining is very much more to us than attainment itself. While to learn something new, to accumulate money or property or even love seldom fails, for there is also the hope of the future; to leave nothing one wants that one must work for means stagnation.

"Yes," said the woman who had first spoken. "There is nothing as glorious as one's first love affair with its tremors and fears and uncertainties; but when it is exchanged for the certainty of marriage—even a marriage that is perhaps as happy as wedded happiness goes—the most thrilling thing in life, suspense, is gone and one cannot help being sometimes bored with the monotony of it."

Memo: There is no real reason why one should be bored or lonely but we are likely to be one or the other from pure laziness.

Atlanta Passes 75th Birthday.

A social event of Monday evening was the surprise party at which Mr. and Mrs. Louis Pazol entertained in honor of the 75th birthday of Mrs. Pazol's father, Paul Sevelovitz.

The guests included Mr. and Mrs. Meyer Rich, Maurice Rich, L. Cohen, M. Feinberg, J. EIGHTY WHITEHALL

THE CONNOISSEUR

Mr. Van de View, audaciously depending on his wits, Takes his sister and her friends for tea and dancing at the Ritz. And although there's only one of him to entertain the three He relies upon his talents and his rare diplomacy.

His abilities are hardly even given half a chance. For the moment that they enter Jane is whisked away to dance. And the only thing he sees is just her frock of white and black. And the collar-scarf to match is floating gayly down her back.

On the point of asking Jerry for a turn about the floor She is taken by a fellow whom he's never seen before. So the best that he can do as they politely take their leave Is to gaze in admiration at her pretty flowing sleeve.

When at last he thinks his difficulties all are in the past And he'll get a chance to have a dance with Dorothy at last, She receives an invitation, and accepting like the rest, Lets him stand and mutely marvel at the print in which she's dressed.

BURGESS CHILDREN'S STORIES

BY THORNTON W. BURGESS.

The Whitefoot Family Moves.

A mother's love will stop at naught. Although with danger it be fraught. —Old Mother Nature.

Mrs. Whitefoot was getting more and more worried. That nursery there in one of Farmer Brown's beehives was getting to be a lively place in more ways than one. Those five babies of hers were growing very fast and they were very lively small folk. This would have been bad enough at best, for five babies can always manage to get into plenty of mischief. But, to make matters worse, the right-ful owners of that hive, who had slept most of the winter, were beginning to stir about. You see, the weather was growing warmer, for gentle Sister South Wind blew almost every day. Whitefoot continued to visit his family nights, for he slept during the day. At night Honey Bee and her companions were quiet. So when Whitefoot visited the hive he was inclined to think that Mrs. Whitefoot was more worried than was necessary.

"Is that house where you are living now big enough for the whole family?" asked Mrs. Whitefoot.

"Yes," replied Whitefoot, reluctantly. "I suppose it is."

"Then I think we'll move just as soon as these youngsters are big enough," replied Mrs. Whitefoot.

"It is a long way to take so many young children," said Whitefoot.

"I can't help it," replied Mrs. Whitefoot. "These bees were going in and out of this hive all of today, and these youngsters were possessed, I poked their heads out and see what all that humming was about. I was nearly worried to death all day long. I just can't stand any more of it. This was a very good winter home, but it is plain to me that it is high time we were out of it. I shall not have another easy moment until we are."

"Of course," said Whitefoot, "if you can get the children moved over to the old stone wall you would be safe from everybody but Shadow the cat."

The next night, "Love Overcomes Fear."

Weasel. He probably isn't around now anyway. Then you could move then by degrees up to that little house where I am living now."

"I think I shall move tomorrow night," said Mrs. Whitefoot very decidedly.

But Mrs. Whitefoot moved before

Mrs. Whitefoot was getting more and more worried. That nursery there in one of Farmer Brown's beehives was getting to be a lively place in more ways than one. Those five babies of hers were growing very fast and they were very lively small folk. This would have been bad enough at best, for five babies can always manage to get into plenty of mischief. But, to make matters worse, the right-ful owners of that hive, who had slept most of the winter, were beginning to stir about. You see, the weather was growing warmer, for gentle Sister South Wind blew almost every day. Whitefoot continued to visit his family nights, for he slept during the day. At night Honey Bee and her companions were quiet. So when Whitefoot visited the hive he was inclined to think that Mrs. Whitefoot was more worried than was necessary.

"Is that house where you are living now big enough for the whole family?" asked Mrs. Whitefoot.

"Yes," replied Whitefoot, reluctantly. "I suppose it is."

"Then I think we'll move just as soon as these youngsters are big enough," replied Mrs. Whitefoot.

"It is a long way to take so many young children," said Whitefoot.

But, to make matters worse, the right-ful owners of that hive, who had slept most of the winter, were beginning to stir about. You see, the weather was growing warmer, for gentle Sister South Wind blew almost every day. Whitefoot continued to visit his family nights, for he slept during the day. At night Honey Bee and her companions were quiet. So when Whitefoot visited the hive he was inclined to think that Mrs. Whitefoot was more worried than was necessary.

"Is that house where you are living now big enough for the whole family?" asked Mrs. Whitefoot.

"Yes," replied Whitefoot, reluctantly. "I suppose it is."

"Then I think we'll move just as soon as these youngsters are big enough," replied Mrs. Whitefoot.

"It is a long way to take so many young children," said Whitefoot.

"I can't help it," replied Mrs. Whitefoot. "These bees were going in and out of this hive all of today, and these youngsters were possessed, I poked their heads out and see what all that humming was about. I was nearly worried to death all day long. I just can't stand any more of it. This was a very good winter home, but it is plain to me that it is high time we were out of it. I shall not have another easy moment until we are."

"Of course," said Whitefoot, "if you can get the children moved over to the old stone wall you would be safe from everybody but Shadow the cat."

The next night, "Love Overcomes Fear."

Mrs. Whitefoot was getting more and more worried. That nursery there in one of Farmer Brown's beehives was getting to be a lively place in more ways than one. Those five babies of hers were growing very fast and they were very lively small folk. This would have been bad enough at best, for five babies can always manage to get into plenty of mischief. But, to make matters worse, the right-ful owners of that hive, who had slept most of the winter, were beginning to stir about. You see, the weather was growing warmer, for gentle Sister South Wind blew almost every day. Whitefoot continued to visit his family nights, for he slept during the day. Mr. Van de View Is Not Overburdened With Dancing Partners

Mr. Van de View, audaciously depending on his wits, Takes his sister and her friends for tea and dancing at the Ritz. And although there's only one of him to entertain the three He relies upon his talents and his rare diplomacy.

His abilities are hardly even given half a chance. For the moment that they enter Jane is whisked away to dance. And the only thing he sees is just her frock of white and black. And the collar-scarf to match is floating gayly down her back.

On the point of asking Jerry for a turn about the floor She is taken by a fellow whom he's never seen before. So the best that he can do as they politely take their leave Is to gaze in admiration at her pretty flowing sleeve.

When at last he thinks his difficulties all are in the past And he'll get a chance to have a dance with Dorothy at last, She receives an invitation, and accepting like the rest, Lets him stand and mutely marvel at the print in which she's dressed.

DAILY CALENDAR OF SOCIAL EVENTS

The concert of Jascha Heifetz, world-famous Russian violinist, will be held at 8:30 o'clock at the city auditorium.

The Friday Morning Reading club meets at 11 o'clock at the home of Mrs. Ruby Robinson on Peachtree street.

The house committee of the woman's auxiliary to Wesley Memorial hospital, with Mrs. John Staton as chairman, will sponsor a musicale at 3 o'clock at the home of Mrs. Henry Heinz, 1610 Ponce de Leon avenue.

Teas at the Atlanta Woman's club.

Founders' day banquet given by the Sigma Alpha Epsilon fraternity at Piedmont Driving club.

Dance at the Officers' club in Fort McPherson honoring General and Mrs. Abraham G. Lott.

Celebrating the birthday of Dr. William Waugh Smith, founder and first president of Randolph-Macon Woman's college, Lynchburg, Va., Atlanta chapter of the college alumnae association meets at the home of Mrs. D. T. Robinson,

JUGGERNAUT

By Alice Campbell

SYNOPSIS

Ether Rowe, a young nurse, having accompanied an invalid from the United States to Cannes on the Riviera, is about to return to New York when she sees an advertisement in the paper for a nurse and doctor's assistant and she decides to apply for the job in order to spend a little time in Cannes.

While waiting for an answer to her application to Dr. Sartorius, Ether treats herself to tea at the fashionable Restaurant des Ambassadeurs. She becomes interested in the conversation of a beautiful French woman and her escort, an Englishman, who sit at the next table. On returning to her hotel, Ether finds a note from the doctor asking her to report the morning.

The beautiful French woman of the restaurant comes to see Dr. Sartorius and Ether learns that she is Lady Clifford. A few days later her husband, Sir Charles Clifford, is stricken with typhoid fever and Dr. Sartorius gives up his practice and laboratory work to devote himself exclusively to Sir Charles. Ether is taken on the case as day nurse.

Roger Clifford, Sir Charles' only son, arrives in Cannes. Sir Charles tells his son that he has changed his will to the extent of making him executor and trustee of the whole estate. Roger is attracted to Ether and invites her to dine and dance with him. They go to one of the fashionable restaurants in Cannes.

On returning to the house Rogers came upon his stepmother in the darkened drawing room with Arthur Holiday, who has been paying Lady Clifford some attention. Roger orders Holiday to leave the house.

The next day Sir Charles breaks the news to his wife that he has named his son executor of his estate in his will. Lady Clifford flies into a rage.

Roger takes Ether out for a ride in his car and almost runs down a pedestrian.

The next day Sir Charles breaks the news to his wife that he has named his son executor of his estate in his will. Lady Clifford flies into a rage.

Roger takes Ether out for a ride in his car and almost runs down a pedestrian.

INSTALLMENT XXXV.
ROGER IS ANNOYED.

The man in the road, a short, thick-set brigand, by the look of him, rushed up to the car, hat in hand, his face beaming.

"Gent bien, mademoiselle! Ah, mademoiselle, que je suis ravi de vous voir!"

"Jacques! It's Jacques, Roger, the doctor's servant."

On hearing this Roger expressed his regret at having so nearly ended the other's career. The little man's animosity had quite vanished, his black eyes shone with kindly affection which included his late enemy with Ether.

"Ah! Ca n'est rien, Monsieur, c'était ma faute, je vous assure! And how goes everything with you, mademoiselle?"

"Quite all right, thank you, Jacques. And you?"

"Ah, what you call so-so—comme ça, comme ça. Now I look after Capt. Holiday, he says he's a doctor, but I think not for long. The captain he sleep nearly all day, I have to cook for him. But I learn to make cocktails," he added with a twinkle.

"I suppose you'll be glad to get the doctor back?"

The little man looked dubious.

"Yes, but I tell you, mademoiselle, I don't feel so sure the doctor means to come back soon, perhaps not for a long time."

"Why, what makes you think that?"

"Ah!—he has lost his boot in between the cobblestones and gazing at it thoughtfully. 'Mademoiselle, the doctor says he'll be back soon, when the captain goes, I can take a long vacation, I can go to my people in Cognac, a month, two months, maybe more. He says he's not sure what he will do perhaps he'll go away from Cannes.'"

"You mean he might give up his practice?" asked Ether, astonished.

"I know nothing, he always says he hope one day to stop work again, I cannot tell you. And then he speak yesterday to the captain and say he think he will—how do you say?—sout—leave the house."

"Sublet the house! Then he does mean to go away. How extraordinary!"

"To you, mademoiselle, not to me. I know the doctor from long time."

"Well—I'm glad to have seen you, Jacques. Good-by and good luck."

She leaned out of the car and shook his hand warmly, an attention which delighted Jacques' soul beyond measure.

"An revoir, mademoiselle! An revoir, monsieur! Bonsoir!"

When they had gone on again Roger remarked:

"Your Sartorius is a queer card. No one to look at him would think he could be so temperamental."

"Yet he's first and foremost a scientist. I believe he would almost starve in order to pursue his work in the laboratory."

The thought in her mind was that the Clifford must indeed be paying the doctor well if he could afford to drop his practice in this casual fashion. A few weeks ago as a private physician was one thing, but a matter of months was another. In spite of what Jacques had always told her, she felt there must be some mistake about it.

As for Lady Clifford, whether her symptoms were prompted by hysteria or not, she kept her bed for two days, frequently visited by the doctor. On the afternoon of the third she emerged from her room, still pale and wan, but otherwise quite herself.

Two days more went by uneventfully. About 3 o'clock on the second afternoon, Ether put on her coat and hat and set out for a walk. Roger had not been home for lunch, but to her surprise she found him in the hall, wearing an old tweed overcoat and engaged with a somewhat angry air in running tobacco down into the bowl of a pipe. It was the first time she had seen him smoke a pipe.

"Hello! Going for a walk?"

"Yes, I need exercise."

"So do I. I'll come with you if I may. I was going to start out alone."

"Wouldn't you rather go alone?"

He looked at her, smiling to reply, then jammed the pipe in his mouth and reached for his hat and a stick. His chin was particularly aggressive, his blue eyes smoldered ominously. She forbore to question him, and they left the house and walked briskly along the road for 200 yards before either attempted to break the silence. At last, he spoke.

"I wish," he said in a hard voice, "that people would not tell lies simply and solely for the sake of lying. A good thumping in the right place and in a good cause is a thing I thoroughly uphold. But pointless, gratuitous untruths irritate me beyond measure."

"Perhaps," she ventured, "the person who has incurred your displeasure believes in the saying of Pudd'nhead Wilson—'Truth is the most valuable thing we have. Let us economize it.'"

His face relaxed for a moment, then stiffened again.

"No, but hang it, Esther, I'm damned annoyed."

"That's quite apparent."

He strode on again in angry silence, then with sudden laugh became more communicative.

"It's nothing much. I might as well tell you. By the way, I suppose as a nurse you are quite in the habit of having people confide in you, aren't you? Though I hope you realize I don't have my soul to you because of your official position. It's more because you happen to have lashes that turn back in a certain way."

"Many thanks!"

"Well, then, it's about my stepmother, Therese. Gad, how that woman does rub me the wrong way!"

A little while ago I came back from the courts, a little earlier than usual, it began to rain a bit. I went up to my room to change and what do you think? She was there."

"Lady Clifford in your room? Why?"

"On my word of honor, she has never been near me before, to my knowledge, there's no reason why she should especially as she's not particularly fond of me—as you may have guessed. In fact, I've told you how she feels about me."

"It was odd. What was she doing there?"

"I'm blessed if I know. When I threw open the door she was in the middle of the room, I should say on the way out. She looked startled, wasn't expecting me, naturally. Then when I stared at her she smiled very nicely and said she hoped I didn't mind, but she had slipped in, thinking I was still away, to get a book out of my bookcase."

"So that was it, was it?"

"Wait till I tell you. I said, 'Certainly, go ahead and help yourself,' and she knelt down in front of the book shelves and took out a book. I would have believed her and thought no more about it, only I happened to see that book."

"What was it?"

"You'd never guess. It was 'L'Abbe Constantin.'"

"L'Abbe Constantin?"

"Yes, can you see Therese reading a thing like that, a sweet little sentimental tale they give young girls in an elementary French course?"

"Oh, so you think that was an excuse?"

"What do you think? I know it was. The point is, why should she have to invent an excuse for being in my room? No doubt she had a perfectly good reason for being there, why not say so? I daresay she likes to see herself in my mirror; it's in rather a good light. Something of that sort. What exasperates me is that she should think it worth a lie. I shall go on bothering my head as to why she was really there. I shall be wondering whether she came to read my letters, or something absurd like that."

NEW YORK, March 8.—(AP)—

An early advance on bull market was followed by partial reactions in the cotton market today. After selling up to 15.90, the market closed at 15.87 1/2, a net advance of 6 to 10 points.

The market opened steady at advances of 1 to 3 points in response to relatively firm Liverpool cotton. Trading became more active after the call and prices firmed up on private cable advices reporting that an international trade organization estimated the world's consumption of American lint cotton for the first half of this season at 8,225,000 bales, compared with 8,557,000 bales of American cotton for the first half of 1927, and 7,423,000 for the six months ended January 31, 1927.

These figures attracted a good deal of bullish comment, and prices advanced above average expectations, some traders here contending that they pointed to a consumption of 15.5-4 or 16 million bales for the Liverpool market.

At a time, the market was rather active, prices selling up to 15.88 for March and 15.18 for October, or about 12 to 14 points higher than the previous day. However, after the call, prices sagged later in the day under comparatively small offerings.

Failure of the consumption figures to create a more active demand, and the pointed some of the early buyers and may have accounted for some of the afternoon selling. Selling was also reported on a favorable view of the

Weather news, although it was said there still was a deficiency of subsoil moisture in some parts of the south.

Closing prices showed reaction of about 6 to 8 points from the high point and the morning's advance.

Except for the flurry of activity of the start, trading was quiet, which was commented upon in some quarters as suggesting a lack of interest in the market.

Private cables reported covering and general buying on the reported bullish consumption figures in Liverpool and said there was a fair cloth demand from India, although many offers were impracticable with yarns quoted.

12 spot receipts were 14,223. Cotton States port receipts, 1,978,278. Exports today, 21,251; making 5,410,345 so far this season.

NEW ORLEANS CONTINUES DULL.

New Orleans, March 8.—(AP)—Trading in today's cotton market was extremely dull, with the market holding the same level for two hours.

Good Liverpool advices were responsible for a moderate early advance, but the market was held by the bullish showing of the International Federation of Spinners' statement on the consumption of American cotton.

The advance met profit-taking, however, and May contracts traded off from 18.32 to 18.20, and closed at 18.22, compared with 18.14 at Wednesday's close. The general market was steady at net advances of 8 to 9 points.

The opening was steady, first trades showing gains of 6 to 8 points in response to the firm Liverpool cables. The market continued to advance after the start on moderate trade buying promoted by the International Federation's report showing an increase of 803,000 bales of American cotton consumed in the first six months of the season compared with the same period last year. July advanced to 18.40 and October 17.82, 14 to 19 points above the previous close.

Realized developed and the market turned slightly easier. July sold off to 18.04 and October 17.74, 8 to 12 points higher than the previous close. These prices obtained for practically two hours, the market hardly fluctuating from noon until the end of the day.

Prices were higher than the previous day, but 7 to 8 points below the previous close. These prices obtained for practically two hours, the market hardly fluctuating from noon until the end of the day.

Prices were higher than the previous day, but 7 to 8 points below the previous close. These prices obtained for practically two hours, the market hardly fluctuating from noon until the end of the day.

Youngstown, Ohio, March 8.—(AP)—

The proposed merger of Youngstown Sheet and Tube company and Inland Steel company negotiated recently has been called off, it was announced here today by James A. Campbell, president of Sheet and Tube.

The Inland statement by Mr. Campbell said merely that the parties to the merger had been unable to agree.

Today's revelation that the merger had failed, after having apparently been successfully negotiated, was believed to account for recent heavy selling of both Sheet and Tube and Inland on the New York Stock exchange.

On selling orders from Chicago brokers, Sheet and Tube fell from 86 to 88 1/2 in the last two weeks.

Inland already has paid a large cash dividend on the basis of the proposed merger, thus dividing a surplus, and has recalled its preferred stock.

Mr. Campbell's statement gave no hint of the causes which led to a reversal of the agreement.

The merger would have brought into being a \$308,000,000 organization. Sheet and Tube's assets are about \$300,000,000 and Inland's \$86,000,000.

INLAND HEAD CORROBORATES.

Chicago, March 8.—(AP)—L. E. Block, chairman of the Inland Steel company, refused today to say anything about the proposed merger of the company with Sheet and Tube.

Mr. Campbell, president of the Youngstown Sheet and Tube company, on the failure of the proposed merger of the two companies.

"We were merely unable to agree on several important features," he said.

BALDWIN LOCOMOTIVE OFFICERS REJECTED.

Philadelphia, March 8.—(AP)—President Samuel Vaulain and all the other officers of the Baldwin Locomotive Works were rejected at a reorganization meeting of the board of directors today.

Mr. Vaulain after the meeting declined to have anything further to say regarding reports of possible affiliation or mergers with electrical manufacturing or other concerns. He has heretofore said that he knew of no proposed mergers.

Ten industrials 98.51 98.52

Combined average 98.51 98.52

Combined month average 98.51 98.52

Total bond sales (par value) \$18,216,000.

New York, March 8.—(P)—

Announcement of the treasury's March

15 financing at 3-4 and 3-8 per

cent for short-term securities was

reflected in today's market by firm

prices for government and other high-grade

bonds. Some hesitancy was created

by failure to make another offer for

exchange of third Liberties, but feeling

that this indicated expectations of

more favorable money conditions at

a later date.

A sudden burst of strength in New

York Treasury issues presumably was

due to indications that the expected

strike might be averted, accompanied

by renewed discussion of an increased

rate schedule. Interborough lines ad-

vanced 1 to more than 2 points, the

refunding 5s reaching new high

ground for the year, along with New

York City 4 1/2s, which also rose 1/2

and 4 1/2s a point or so higher.

Rock Island 4 1/2s converted into a free-

float issue, which was sold at 100.

Mobile and O. & A. 4 1/2s recorded mod-

erate net gains on heavy trading.

Strength of stocks was reflected by

liquidation of carbonic gas, which

Cement 6 1/2s and Atlantic Gulf &

West Indies 5s, the two last mentioned

reaching new highs for the year.

exchange of third Liberties, but feeling

that this indicated expectations of

more favorable money conditions at

a later date.

A sudden burst of strength in New

York Treasury issues presumably was

due to indications that the expected

strike might be averted, accompanied

by renewed discussion of an increased

rate schedule. Interborough lines ad-

vanced 1 to more than 2 points, the

refunding 5s reaching new high

ground for the year, along with New

York City 4 1/2s, which also rose 1/2

and 4 1/2s a point or so higher.

Rock Island 4 1/2s converted into a free-

float issue, which was sold at 100.

Mobile and O. & A. 4 1/2s recorded mod-

erate net gains on heavy trading.

Strength of stocks was reflected by

liquidation of carbonic gas, which

Cement 6 1/2s and Atlantic Gulf &

West Indies 5s, the two last mentioned

reaching new highs for the year.

Savannah, Ga., March 8.—(P)—

Announcement of the treasury's March

15 financing at 3-4 and 3-8 per

cent for short-term securities was

reflected in today's market by firm

prices for government and other high-grade

bonds. Some hesitancy was created

by failure to make another offer for

exchange of third Liberties, but feeling

that this indicated expectations of

more favorable money conditions at

a later date.

STOCK MARKET

Thurs. Wed.

Ten first grade rails 98.51 98.52

Ten second grade rails 98.51 98.52

Ten public utilities 98.51 98.52

Ten industrials 98.51 98.52

Combined average 98.51 98.52

Combined month average 98.51 98.52

Total bond sales (par value) \$18,216,000.

New York, March 8.—(P)—
